Objective

Aspiring psychology professional seeking internship opportunities in hospitals, clinics, or NGOs to apply academic knowledge in real-world mental health settings. Eager to contribute meaningfully to patient care while gaining practical experience and insight into therapeutic practices.

Education

IILM University - Bachelor of Science in Psychology

Expected Graduation: 2028 | Currently in 1st Year

Projects & Workshops

Psychosymposium - Gargi College (March 2025)

- Presented psychological concepts through team-led workshops to promote mental health awareness.
- Engaged with students and professionals to analyze case studies and share insights from psychological research.

Panel Discussion: "The Anxious Generation" (Feb 2025)

- Participated in expert-led discussion with Dr. Mansi Kothari and Deepti Chandey.
- Explored strategies to support youth mental wellness and the sociocultural impact of anxiety.

Workshop: Overthinking & Loneliness - Understanding Their Impact (March 2025)

- Collaborated with mental health professionals to analyze how overthinking and loneliness affect well-being.
- Explored coping strategies and peer-based support approaches in interactive sessions.

Skills & Leadership

- Creative Mental Health Advocacy: Designed impactful awareness campaigns, recognized for originality and community engagement.
- Team Leadership: Served as Co-Head of a creative team, delivering mental health projects that foster collaboration and innovation.
- Effective Communication: Fluent in English with strong interpersonal skills, adept at explaining complex psychological concepts clearly.
