

Internship Assignment with Child Rights and You (CRY)

CRY offers a meaningful internship opportunity for students to engage in impactful work while developing key skills.

The internship will focus on three core areas:

1. Data Analysis & Report Writing

- Conduct a study on **awareness of online safety** among children and stakeholders.
- Collect and analyse data to identify trends and insights.
- Prepare a comprehensive report based on the findings.

2. Direct Engagement with Children

- Participate in a **two-day field engagement** with children.
- Conduct interactive classes on **basic Mathematics, English, Science, Hindi, and Bengali** to enhance learning.

3. Content Writing & Translation

- Engage with stakeholders, including **children and volunteers**, to gather impactful stories.
- Write compelling **case stories** based on real experiences.
- Translate documents from **English to vernacular languages** to improve accessibility.

This internship provides hands-on experience in child rights advocacy, education, research, and content creation. Students will gain valuable skills while contributing to a meaningful cause.

Takeaways for Interns

1. **Internship Completion Certificate** – Recognizing your contribution and learning experience.
2. **Expert Sessions on:**
 - **Data Collection & Compilation** – Learn effective methods for gathering and organizing data.
 - **Public Speaking** – Develop confidence and communication skills for impactful interactions.
 - **Case Story Writing** – Master the art of crafting compelling narratives based on real-life experiences.
