IISSM ANNUAL GLOBAL CONCLAVE 2023

on

Disaster, Climate Change, Security:

Business Leadership, Innovation
& Building Resilience (BLIBR)

Message From Chairman Emeritus

Dear IISSM Members and Practitioners of Security, Safety and Loss Prevention and all stakeholders.

I am delighted to invite you to the 33rd Annual Global Conclave hosted by the International Institute of Security and Safety Management (IISSM). The event will be held in the Megapolis of Delhi & NCR from **December 18-20, 2023**.

This year the Conclave theme is **"Disasters, Climate Change, and Security: Navigating Business Leadership, Innovation, and Resilience."** This theme reflects the pressing issues the whole world faces today, such as global energy emission and the consequent climate change leading to disasters and disruption it causes to the businesses and human life and habitats. These human and material losses contribute to an annual economic decline of 3 to 5% in India alone.

The IISSM 33rd Conclave has been curated to address these new and emerging issues and challenges to generate necessary awareness among the Security, Safety and Loss prevention professionals as also all stakeholders of the emerging role and responsibilities in preventing or mitigating the numerous disastrous effects of this global phenomena. Even if half of the present worldwide business and human losses are saved from destruction, we can create a safer and more sustainable global landscape. The Conclave aims to evolve and develop methodologies including technologies and techniques for loss prevention and mitigation to foster secure environments.

As in the past, we are assembling a selected group of experts from diverse fields – industry, business, academia, legislators, and government-both home-grown and foreign. This diverse bouquet of expertise promises new perspectives and strategies that are essential to meet these challenges.

I fervently hope that you will participate in this especially significant Conclave. Your perceptions and views will play a critical role in shaping our approach to the challenges we face today.

Warm regards,

S K Sharma, IPS (Retd.)
Founder and Former Director General
National Crime Record Bureau, Govt. of India.
Chairman Emeritus, IISSM

1991

1st Seminar held at Tai Mansingh, New Delhi on "Industrial Security and Fire Safety".

1992

2nd Seminar held at New Delhi on "Total Loss Prevention Concept" President Giani Zail Singh presided over the sessions of the Seminar.

1993

3rd Seminar held at Bangalore on "Towards Technology". Vice President of India Mr. B D Jatti, Presided over the sessions of the seminar.

1994

4th Seminar held at New Delhi on "Towards Professionalism" Mr. Rajesh Pilot, addressed the Seminar.

Chairman's Message

Dear Esteemed IISSM Members, Valued Stakeholders, and Distinguished Delegates,

I'm very happy to invite you to the 33rd Annual Global Conclave of the International Institute of Security and Safety Management (IISSM) in the dynamic city of Delhi, taking place from **18th to 20th December, 2023**. This year's conclave centers around the pivotal theme: **'Disaster, Climate Change, Security: Business Leadership, Innovation & Building Resilience (BLIBR).'**

This theme holds immense relevance in today's world, given the multitude of pressing challenges we face. From the far-reaching impacts of the COVID-19 pandemic to recent natural calamities like cyclone 'Biparjoy,' which struck India's west coast, destructive flooding due to abnormally heavy rainfall in the states of Himachal Pradesh and Uttarakhand in India, the ongoing Ukraine-Russia conflict in Europe, and the raging forest fires in Canada, these events have wreaked havoc on lives, economies, and businesses. Additionally, global issues such as the Ukraine conflict and Canadian wildfires further compound the urgency.

The imperative is clear: we must fortify our resilience and develop strategies to mitigate risks posed by these challenges. Innovation and leadership stand as key pillars, enabling the creation of novel technologies and approaches for disaster prevention and response.

The IISSM Global Conclave acts as a unique platform where business leaders, security professionals, and stakeholders can converge to exchange ideas and share their experiences. Together, we will delve into the latest security trends, forging pathways to collectively build a more resilient future.

Your active participation is integral to the conclave's success. I encourage you to engage wholeheartedly in the diverse sessions, seize networking opportunities, and generously contribute your insights. Your involvement will undoubtedly shape this event into an extraordinary and transformative experience.

Anticipation builds as we look forward to welcoming you to Delhi in December.

Sincerely,

G M Srivastava, IPS (Retd)
Former Director General of Police (Assam & Tripura),
Chairman, IISSM

1995

5th Seminar held at Kolkata on "Towards Productivity" Mr. Bidyut Ganguly, Minister (Govt. of India) presided over the Sessions.

1996

6th Seminar held "Industrial Security: Its Challenges" Dr. M M Joshi, Union Minister of HRD (GOI) presided over the sessions.

1997

7th Seminar held outside India in Mauritius on "Industrial Security: Need for Introspection" Seminar Inaugurated by PM of Mauritius.

1998

8th Seminar held at Kathmandu on "Industrial Security: Need for Professionalism to meet its Challenges". Mr. G R Joshi, Home Minister, Nepal presided over the sessions.

Executive Chairman's Message

Dear Esteemed Members of IISSM, Valued Stakeholders, and Visionary Business Leaders,

I am writing to invite you to the 33rd Annual Global Conclave of the International Institute of Security and Safety Management (IISSM), which will be held in New Delhi from **18th to 20th December, 2023**.

This year's conclave is centered around the theme of **"Disaster, Climate Change, Security: Business Leadership, Innovation & Building Resilience (BLIBR)"**.

This theme is of paramount importance, as our lives are increasingly touched by the impact of disasters, both large and small. From pandemics to earthquakes, droughts to heatwaves, tsunamis to cloud bursts, these events have a devastating impact on lives and assets, costing us nearly 3% of our GDP annually.

The need to address these issues holistically is clear. We must create a robust framework for sustainable growth and development that can withstand the shocks of the 21st century. This is not just a challenge for India but for the entire world.

For over three decades, the IISSM has brought together the brightest minds from industry, academia, and government to address the most pressing security and safety challenges of our time. At this year's conclave, we will continue this tradition by exploring how we can nurture business leadership, foster innovation, and strengthen resilience in the face of disaster, climate change, and other threats.

I hope you will join us for this important event. Your participation will help us to shape the future of security and safety for our world.

Sincerely,

R.K Sinha
Former MP (Rajya Sabha)
Executive Chairman, IISSM

1999

9th Seminar held at Penang (Malaysia) on "Chaining Face of Industrial Security in the Coming Millennium". Representative from Min. of Home Affairs, Malaysia and Chief of Police Penang attended the seminar.

2000

10th Seminar held at Bengaluru on "Industrial Security: Vision & Mission in the New Millennium". The Seminar was presided by Mr. S M Krishna, CM Karnataka.

2001

11th Seminar held at Kolkata on "Industrial Security: Its Expanding Role and Need for System Integrator".

2002

12th Seminar held at Chennai on "Terrorism: Its Threats to Industrial Security and Effective Preventive Measures Needed".

President's Message

Dear IISSM Members and delegates from Government, Sustainability and Security professions

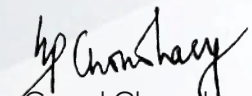

I am honored to welcome you to our upcoming 33rd Annual Global Conclave of the International Institute of Security and Safety Management (IISSM), New Delhi, scheduled from **18th to 20th December, 2023**. The overarching theme for this year's conclave is **'Disaster, Climate Change, Security: Business Leadership, Innovation & Building Resilience.'**

In a world facing unprecedented challenges, it is imperative that we come together to address the critical issues of disaster management, climate change, and security. The significance of crafting well-thought-out strategies and executing them meticulously and collaboratively by all the stakeholders with support of the State cannot be overstated. Effective disaster management, climate adaptation, and security measures require not only innovative approaches but also the commitment of leaders with having a long-term vision, plan and their meticulous execution. It is through commitment and dedication that we can achieve sustainable development and build resilience in the face of adversity.

This seminar will delve into these issues, right approach to strategies, bench-marking of practices of planning, execution and audit, development of in-house competence to deal with crises as part of resilience building for achieving the sustainability goals with continuous improvement and excellence.

I invite you to actively participate in these deliberations, share your insights, and take away valuable strategies and best practices that can be applied in your organizations. Together, we can foster an environment of collaboration, knowledge exchange, and innovation that will shape the future of disaster management, climate action, and security enhancement and contribute to a safer and most sustainable future for us.

Thank you for your dedication to this crucial cause. I look forward to engaging with you all at the Conclave.

Gopal Choudhary
President, IISSM

2003

13th Seminar held at New Delhi on "Industrial Security: Challenge of Changes". Padma Vibhushan Dr. R. A. Mashelkar FRS, DG CSIR presided over the seminar.

2004

14th Seminar held at Hyderabad on "Professional Excellence through continued Training and Education". IISSM mandated by Min. of Home Affairs to assist with development of Private Security Agencies (Regulation) Act.

2005

15th Seminar held at New Delhi on "Total Loss Prevention Programme (TLPP) - An Integrated Approach for the Corporate World".

2006

16th Seminar held at New Delhi on "Synergy Between Public & Private Sector Security System". Mr. Shivraj V. Patil, Home Minister, inaugurates the Conclave. For the first time, government view on regulation and development of Private security industry was discussed.

Conclave Brief

The intersection of disaster management, climate change, and security has become an increasingly significant global concern. The interplay between these factors has far-reaching implications for the safety, well-being, and stability of communities and nations. The increasing frequency and intensity of natural disasters, coupled with the impacts of climate change, pose significant threats to human security and exacerbate existing vulnerabilities. The proposed conclave aims to bring together key stakeholders from diverse sectors to foster dialogue, collaboration, and knowledge sharing on the interrelated challenges of disaster management, climate change, and security. The conclave recognizes the urgent need for a coordinated and holistic approach to address these complex issues. By convening experts, policymakers, practitioners, and community leaders, this event will facilitate the exchange of ideas, best practices, and innovative solutions to build resilience and enhance preparedness for future challenges.

The conclave will provide a unique platform for stakeholders to engage in meaningful discussions, share experiences, and develop collaborative strategies to address the intertwined challenges of disaster management, climate change, and security. By fostering knowledge exchange, promoting collaboration, and identifying policy recommendations, the conclave will contribute to building resilience and creating a more secure and sustainable future.

Disaster

Response

2007
