OBJECTIVES

As an ambitious law student with a passion for public speaking, debate competitions, and community service, I seek to contribute my legal acumen and communication skills in a non-traditional capacity. My objective is to engage with legal advocacy organizations, NGOs, or governmental bodies where I can apply my legal knowledge to effect positive change. Whether it's crafting persuasive arguments, analysing complex legal issues, or collaborating with diverse stakeholders, I am committed to making a meaningful impact beyond the courtroom. My passion lies in using the law as a powerful tool for social justice and community empowerment.
