SUMMARY

I am a dedicated and skilled Computer Science student specializing in Data Science with hands-on experience in Python programming, machine learning, and data analysis. During my internships, I developed interactive projects and contributed to Java-based client-server applications. I have a strong foundation in data visualization tools and a profound understanding of algorithm design, showcasing my commitment to continuous learning and growth in the tech industry.

EMPLOYMENT HISTORY

Intern - Ypsilon IT Solutions

Indore, Madhya Pradesh

June 2024 - July 2024

- Proficient in Core Java and Advanced Java, with experience in building robust client-server applications using multithreading, JDBC, Servlets, and JSP.
- Collaborated on a client-focused project at Ypsilon IT Solutions Pvt.Ltd., delivering optimized Java-based solutions as part of an internship program.
- Skilled in data analysis and visualization, leveraging tools like Python libraries (Matplotlib, Seaborn) and SQL for data-driven insights.
- Knowledge of machine learning fundamentals, with an understanding of predictive algorithms and their applications in real-world scenarios
