EXPERIENCE

INTERN

Team Everest | Tamil Nadu, India | Part-time

Along with our team, I learned how to provide easy access to learning for underprivileged students and create daily worksheets and exercises that make education interesting and engaging. I diligently adapted to language barriers and developed a strong understanding of each topic covered in the lessons designed for the students.

VOLUNTEER

Population Research Centre | Childs Right and You

At Population Research Centre, I learned how to collect data at the research level where we did telephonic interviews for vaccination drive and its assessed economic impact of pandemic on people, it included data collection and its visualization at district level.

At Child Rights and You, we designed worksheets along with the team to provide learning resources to underprivileged students at the elementary level.
