***B] Why you wish to intern with CRY (in 150 words)***

CRY is the premier NGO in India for charity rendered to children. I chose CRY because it has such an organized structure when it comes to addressing child related issues in India. With its tieups with grassroot level NGO's and other local organizations, CRY has done impressive work at uplifting the lives of uncountable children. I would love to volunteer for CRY.

***C] Choose your preferred answer***

**Note: To each of the statements below please write your response as either AGREE or DISAGREE and further explain your position very briefly**

1. Those with the ability to pay should have the right to higher standards of medical care.

AGREE

A person who can earn should pay for the services they use.

2. All authority should be questioned.

AGREE

Not only authority, question everything and arrive at your independent conclusions but perform duties according to the rules laid down by Authority figures

3. Charity is better than social security as a means of helping the genuinely disadvantaged.

DIASAGREE

Social security is important because an individual can only do so much charity.

**Tick/ highlight the option which you feel is the most appropriate**

**. More than 50% of Indian Children are malnourished. What in your opinion is the main reason?**

- Not enough food grains produced in the country
- Not enough job opportunities for all
- Children have become fussy about food
- **Inequitable distribution of wealth**

**You find way too many drop out children in an area you are visiting.. you would....**

- Build a school where out of school children can study
- Run Coaching Centres in the evening to educate these children
- Speak to the local Councillor/ MLA or Ward Member for the enrolment of dropped out children in the area.
- Conduct public opinion building drives for enrolment of children
- **Find out the root causes that compel children to be out of school and attempt to address the same so that children can go to school**

***D] share you thoughts and views on a Child Rights Issue which you feel strongly about [ a write up of not more than 500 words]***

I feel strongly about children who are parentified at a young age and forced to work at a tender age to support their families. Often times, even if they are enrolled to Government schools, they visit schools for the mid day meals they receive. More often than not they stop attending schools and contribute to the household income by undergoing child labour. They are deprived of a future. Without a formal education or specialized skill set, they will be stuck with menial jobs and minimum wages and will not be enabled to rise above poverty line. These children are heavily traumatized and may indulge in addictions to cope with their adverse childhood experiences. We need to stop child labour and enrol these children in schools and ensure that they attend school regularly.
