ACADEMIC QUALIFICATION

BTech in Computer Science Engineering (CSE)
SRM Institute of Science and Technology, Chennai

(2021 – 2025)

9.16 (CGPA till 7th Sem)

INTERNSHIPS

Virtual Intern, AICTE – AWS (Machine Learning), Tamil Nadu

Aug 2023 - Dec 2023

- AICTE is the platform for advising government on matters of education, it undertakes internship programs to enhance student knowledge in multiple fields.
- Worked as a virtual intern with the 7th cohort of AICTE, focusing on projects assigned through AWS (Machine Learning).
- Applied machine learning algorithms and models to analyze and interpret data, providing actionable insights for project development.

Trainee, Center of Railway Information Systems, Chanakyapuri, New Delhi

Jun 2023 – July 2023

- The Centre for Railway Information Systems designs, develops, implements and maintains most of the important information systems of Indian Railways
- Collaborated with team members and manager to develop a biometrics app using Flutter for Passenger Reservation System.
- Contributed to designing and implementing core features of the app, ensuring seamless integration of biometric authentication.
- participated in regular team meetings and code reviews, providing feedbacks regarding speed of operations to enhance app performance.

RESEARCH PROJECTS

Title: Beyond the Pixel (Research Paper)

Location: SRM Institute of Science and Technology, Chennai

Duration: Jan'24 – Aug'24

Team size: 02

Summary: Engaged in a digital image processing initiative aimed at creating a model capable of detecting counterfeit products. Implemented advanced image recognition algorithms to enhance the accuracy and reliability of counterfeit detection. Co-authored a research paper titled 'Beyond the Pixels'; which talks about counterfeit products, achieving 80% accuracy.

Individual Role: I segregated the given data points in sets of genuine and fraudulent on the parameters of color, texture and gradient.

* Accepted and presented at the 7th International Conference on Circuit, Power, and Computing Technologies (ICCPCT – 2024) held at Kollam, Kerala. DOI: [10.1109/ICCPCT61902.2024.10673315](https://doi.org/10.1109/ICCPCT61902.2024.10673315)

Title: WanderVision (Research Paper)

Location: SRM Institute of Science and Technology, Chennai

Duration: Aug'24 – Feb'25

Team size: 02

Volume: 1: Enhancing Dementia Care Using Artificial Intelligence and Augmented Reality

Summary: Extending our work on the safe path detection for dementia patients and providing assistance to the caretakers by keeping them updated with the movement of the patient. Calculating safe paths, utilizing augmented reality tools for visual cues and integration to create a safe environment were the objective of this research

Individual Role: I worked on the research and paper creation as well as figuring out the AR tools and complexities to integrate with the current technology we possess.

** Accepted and presented at the 5th International Conference on Emerging Systems and Intelligent Computing (ICESiC – 2025) held at Bhuvaneshwar, Odisha. DOI: [pending]*

Title: Wander Guardian (Journal Paper)

Location: SRM Institute of Science and Technology, Chennai

Duration: Jan'24 – Aug'24

Team size: 04

Summary: Working as a co-researcher on analyzing and devising secure pathways for dementia patients, with the additional functionality of a prompt alert in case of erratic behavior. Integrating user feedback and real-time data to enhance effectiveness and ensure patient safety. Aiming to secure an accuracy rate of around 70%, and conducting thorough research by collaborating with healthcare professionals to validate the proposed solutions.

Individual Role: Initially developed algorithm for safe path detection. Recent advancement in the field of creating Augmented Reality environment.

Title: Role of Artificial Intelligence in Healthcare (Survey-based Article)

Location: SRM Institute of Science and Technology, Chennai

Duration: Aug'23 – Dec'23

Team size: 02

Summary: Collaborative authorship on a survey-based research article that works to understand the general perception around artificial intelligence among 200 people from all walks of life.

Individual Role: Read more than 50 research articles and conducted two major surveys.

Title: Sentiment Analysis (Research Paper)

Location: SRM Institute of Science and Technology, Chennai

Duration: Aug'23 – Mar'24

Team size: 04

Summary: Developed a model that analyzes the sentiments of mobile reviews on Amazon's platform using NLP tools such as VADER, roBERTa, and Hugging Face libraries. Conducted comprehensive data preprocessing and feature extraction to improve model accuracy and efficiency. Presented findings and insights in a well-structured research paper, contributing to the academic community's understanding of sentiment analysis. Lead authored a research paper titled 'Mobile Review Sentiments: An In-Depth Analysis,' presented at the 7th International Conference on Intelligent Computing (IconIC) held at Panimalar Engineering College. It achieved a staggering accuracy of 88%. The paper awaits indexing at Springer.

Individual Role: Ideating, soft coding and writing the entire research paper.

** Accepted and presented at the 7th International Conference on Intelligent Computing Technologies (IconIC – 2024) held at Poonamallee, Chennai, Tamil Nadu. DOI: [pending]*

PUBLICATIONS

- Co-author, "Beyond the Pixels: Detecting Originality and Assessing Product Condition using Digital Image Processing Techniques," 2024 7th International Conference on Circuit Power and Computing Technologies (ICCPCT), Kollam, India, 2024, pp. 1242-1246, doi: 10.1109/ICCPCT61902.2024.10673315.

WORKSHOPS

- GLF Global Awareness conducted by the GLF, held online, Nov'22.
- A two-day Deep Learning conference conducted by the CTECH at SRMIST, Chennai, Jul'23.

PRESENTATIONS

- Research Paper presentation of ‘Mobile Review Sentiments: An in Depth Analysis’ at the 7th IConIC conference, Mar’24
- Research Paper presentation of ‘Beyond the Pixels: Detecting Originality and Assessing Product Condition using Digital Image Processing Technologies’ at the 7th ICCPCT, Aug’24
- Research Paper presentation of ‘WanderVision: Enhancing Dementia Care Using Artificial Intelligence and Augmented Reality at the 5th ICESiC conference, Feb’25

SEMINARS & CONFERENCES

- Attended the National Conference on semiconductors at SRMIST, Apr’23.
- Delivered a seminar on ‘electrification of railways’ at SRMIST, Jun’24
- Attended and displayed ‘Wander Guardian’ project at the NAAC Project Expo at SRMIST, May’24

CERTIFICATIONS

- ML specialization by Andrew NG, DeepAi, Dec’23
- AWS Machine Learning, AWS, May’23
- CISCO Packet tracer, CISCO, May’23

TECHNICAL SKILLS

Skills: Machine Learning, Data Analysis, Python, Research Writing, Flutter, Excel

EXTRACURRICULAR ACTIVITIES

- Participant, National Social Service (Mar’22 – May’22)
- Participant, Aarush, SRM (Sep’21 – Aug’22)
- Member, IEEE (Jan’25 –)
