Internship Swadesh legal integration programme | prayagraj, india

The Swadesh Legal Integration Programme 2022, under which I completed my 21-day internship, was an internship programme run by the non-profit Swadesh to enhance interns' understanding via practical inputs. To attain this objective, this programme provided us with several opportunities to visit the various levels of judicial departments about diverse issues, and contact various legal specialists. During this time, we visited tehsils, the district court, the consumer forum, the debt recovery tribunal, the central administrative tribunal, the national company law tribunal, the labour court, the income tax appellate tribunal, the board of revenue, the Allahabad High Court, the Allahabad High Court Mediation and Conciliation Centre, the Allahabad High Court – Lucknow bench, etc. We completed our internship with a holistic approach. This was a fantastic opportunity for novices in this profession to refresh their knowledge and improve their personality, among other things.
