PROJECTS

Consumer Decision Making ↗

Jul 2024 - Sep 2024

This survey was conducted for the IInd Year Bsc. Psychology Statistics Assignment. The survey used basic statistical formulae and methods. The survey conducted for this assignment focused on the topic of "Consumer Decision Making," with an emphasis on how cognitive biases might influence respondents' decisions. To explore this, various cognitive biases were incorporated into the survey questions to determine their impact on participants.

Review of a Research Paper ↗

Aug 2024

This project was part of the 2nd Year, Semester 3 curriculum, focusing on the psychology of middle and late adulthood. It involved reviewing a research paper titled "Death Anxiety, Life Satisfaction, and Psychological Well-Being in Middle Adults" with foundational knowledge of research methodologies. The review aimed to develop an understanding of conducting and analyzing literature reviews.
