Profile

Skilled software developer with around 4 years of experience in developing web applications using the Java 8 ecosystem. Proven ability to design, develop, and deploy scalable and reliable web applications using Spring Framework, Hibernate ORM/JPA, and database technologies like MySQL. Certified AWS Cloud Architect with good hands-on experience with services like Lambda, API Gateway, Cloudwatch, S3, RDS, SQS, ElasticBeanStalk, EC2, etc.

Professional Experience

2020/03 – Present
Pune, India

Senior Software Engineer

Neiron India

- Integrated a new Payment gateway that helped streamline payment process for the end users.
- Created REST APIs for supporting various business needs on platform.
- Integrated 3rd party APIs like Amazon Selling Partner API's, Walmart API's, Shopify API's, Keepa, Rainforest etc. with platform by going serverless with AWS Lambdas.
- Experience in unit testing, integration testing using Junit and Mockito.
- Built scraper in Java and scraped Amazon, Walmart, Wayfair, Flipkart, Lowes and 7 other e-commerce sites and automated scrapes using proxy.
- Worked within a CI/CD environment, automating build and deployment processes resulting in improved productivity.
- Managed a small team of people for integrations, reviewed their PRs and merged them.
- Actively took part in reducing AWS expenses by 20% through monitoring services like Cloudwatch logs, S3 lifecycle policy etc.
- Worked with Database, servers, APIs, microservices, version control systems and third-party APIs.
- Actively took part in architectural discussions with the managers.

Education
