SUMMARY

Hard-working and self-motivated engineer with proven ability to develop and implement innovative strategies that optimize business operations and drive revenue growth. My strong analytical skills and attention to detail enabled me to identify areas for improvement and implement effective solutions in my previous organizations.

EMPLOYMENT HISTORY

Safety Consultant

Aug 2023 - Aug 2024

Relsafe PRA Consulting Pvt. Ltd. | Mumbai, Maharashtra, India

Induction Training and Technical Expertise

- Comprehensive Induction Training: Gained in-depth knowledge in the design and operation of Nuclear Power Plants (NPPs), with a focus on systems of Boiling Water Reactors (BWRs) and Pressurized Water Reactors (PWRs).
- Advanced Safety Assessments: Acquired proficiency in Probabilistic Safety Assessment (PSA) and Deterministic Safety Assessment (DSA), key tools for evaluating nuclear plant safety.
- Risk Analysis Tools: Gained beginner level hands-on experience in utilizing Risk Spectrum PSA Software for Fault Tree and Event Tree analyses, assessing internal and external hazards.
- Reactor Physics: Developed a deep understanding of nuclear reactor dynamics and their impact on plant safety and efficiency.

Marketing and Branding Experience

- Crafted tailored dynamic presentations to communicate complex technical concepts and company values to diverse audiences.
- Designed marketing collateral, including brochures, advertisements, and digital content, to elevate brand visibility and strengthen client engagement.

Staff Assistant - Banking & Funds Management

Apr 2022 - Nov 2022

Kadapa District Cooperative Central Bank | Kadapa, AP

- Continuously monitored and maintained the Cash Reserve Ratio (CRR) and Statutory Liquidity Ratio (SLR) in compliance with RBI guidelines.
- Diligently tracked customer transaction behaviours and conducted comprehensive KYC compliance reviews to identify high-risk banking activities, in close coordination with NABARD.
- Collaborated with third-party insurance providers to ensure the accurate and timely updating of records for PMJJBY and PMSBY schemes.

Graduate Engineer Trainee

Sep 2020 - Apr 2021

ReNew Pvt. Ltd. | Anantapur, AP

- Working collaboratively with several forecasters to refine their AI models, enhancing forecasting and scheduling accuracy. This initiative aims to ensure grid stability and minimize DSM losses.
- Addressing SCADA-related challenges and ensuring data availability for 10 wind farms and 9 solar plants, with operational capacities of 717.4 MW and 410 MW respectively, situated in and around Anantapur, Andhra Pradesh.
- Experienced in fostering cross-functional collaboration and conducting regular review meetings to ensure optimal asset performance.
- Committed to regulatory compliance and devising strategies to mitigate penalties on assets.

EDUCATION AND INTERNSHIPS

National Institute of Technology, Calicut

July 2016 – June 2020

Bachelor of Technology in Electrical and Electronics Engineering

- CGPA: 8.03/10
- Courses: Electric Power Utilisation, Microprocessor and Microcontroller, Electrical system design for Buildings, High Voltage Engineering, Power System stability and control, Unconventional Energy Sources and Fuzzy Logic Systems.

Student Intern

Apr 2018 - May 2018

Andhra Pradesh Power Generation Corporation Limited | APGENCO

- During my two-week industrial training program on "Thermal Power Plant Familiarization," I gained a comprehensive understanding of both the theoretical concepts and practical operations within a thermal power plant.
- This experience provided me with valuable insights into plant operations, equipment, and the processes involved in generating thermal energy.

PROJECTS

Embedded Protection Scheme for a Three Phase Induction Motor

July 2019 - May 2020

- Designed a simple, reliable, and cost-effective prototype model for protecting three-phase induction motors using a microcontroller.
- Implemented features to safeguard the motor against under-voltage, single phasing, over-current, and phase reversal conditions.
- Focused on enhancing the durability and efficiency of induction motors in industrial and commercial applications.

Portable Mobile Battery Charger using Solar Energy

Dec 2018 - May 2019

- Developed an innovative approach to integrate solar photovoltaic (PV) panels into small-scale circuitry, enabling mobile phone charging through sustainable energy.

- Enhanced reliability by utilizing the same PV panels to charge batteries, ensuring consistent power availability during nighttime.
- Focused on creating a cost-effective, eco-friendly, and renewable energy solution for portable electronic devices.

Light Sensor and Darkness Detector

Sep 2018 - Oct 2018

- Designed a darkness detection system using simple hardware components, primarily a Light Dependent Resistor (LDR).
- Developed a circuit capable of detecting low-light conditions, which can be implemented in automatic switching and home automation systems.
- Focused on simplicity, cost-effectiveness, and adaptability for real-world applications in energy-efficient solutions.

ACTIVITIES

• ReNew Power

- Delivered a presentation on **Power Regulations in Andhra Pradesh** and **DSM Mechanism** to employees across the AP region.
- **Spot Award Winner** (February 2021): Recognized for ensuring minimal penalties throughout the month, demonstrating exceptional attention to detail and compliance.
https://drive.google.com/file/d/1wD_rCkin6xQuAUfxhZrUZ9aElxQlwDry/view?usp=drive_link

• Leadership Roles

- **Senior Executive**, Hospitality Committee: Contributed to the smooth functioning of **RAGAM** (Cultural Fest) and **TATHVA** (Tech Fest) at college.
- **Event Manager**, Tathva 2018: Successfully organized **ACCELEROBOTX**, a robotics-based competition.

• School Achievements

- Winner of the **Society for Advancement of Science and Technology (SAST)** state-level examination (2012).
- Secured victory in the state-level project exhibition competition, **Inspire** (2013).
- Active participation in anchoring, sports, essay writing, and elocution, alongside maintaining strong academic performance.

• Volunteer Experience

- Dedicated **NSS Volunteer**, contributing to community welfare initiatives.

• Additional Accomplishments

- Participated in multiple science fairs, showcasing innovative projects and ideas.
