EDUCATION

Indian Institute of Science Education and Research Thiruvananthapuram <i>Thiruvananthapuram, Kerala, India</i> <i>3rd yr BSMS (Data science Major)</i>	2021 – present
Higher secondary School <i>Physics Forum, Aurangabad</i>	2020
Secondary School <i>Shri Chhatrapati Shivaji Highschool, Sillod</i>	2018

COURSEWORK

Courses: Machine Learning, Deep Learning, Data Base management systems, Scientific computing, Optimization Techniques, Data Structures & Algorithms, Design & Analysis of Algorithm, Statistical Methods for Data Science, Bio-informatics, Python Programming

TECHNICAL SKILLS

Programming Languages: Python (NumPy, Pandas, Scikit-Learn) C++. R, SQL, L^AT_EX
Web Development: HTML, CSS, Javascript
Machine Learning: Supervised, Unsupervised, Deep Learning
Databases: MySQL, SQLite
Tools: Git/GitHub, VS Code, Jupyter, Atom, MsOffice, MsExcel, Canva

PROJECTS

Predicting Physical Activity Types <i>Guide - Dr. Alwin Paulose</i>	Jan2024 – Feb2024
- Used various ML Algorithms to predict physical activity type by using sensor readings from Apple watch and Fitbit Data. - Learned Data preprocessing and visualisation, and to identify and select relevant features for model training. - Gained insights into the concepts of hyperparameters, overfitting, and underfitting and their impact on model performance. - Explored different basic machine learning algorithms such as linear regression, logistic regression, decision trees, k-nearest neighbors and ROC, and how to choose the most appropriate one.	
Study Project <i>Guide - Dr. Saptarshi Bej</i>	Dec2023
- Understood the concept of supervised, Unsupervised and Reinforcement Learning. - Learned basic working principle and maths behind various ML algorithms - Learned the end-to-end process of a typical machine learning project, including data collection, preprocessing, model training and evaluation.	

ONLINE COURSES

Python for Data Science and Machine Learning Bootcamp (udemy)	Jan2024 – present
FullStack Web Development (Apna College)	May2023 – Dec2023

WORKSHOPS

Real Life Data Modelling Through statistical and Machine Learning Tools

Jan2024

- Gained basic understanding of fundamental data modeling concepts, including the importance of data representation, relationships, and structure.
- Gained practical experience in implementing data modeling techniques using tools and programming languages such as Python, R, or others.

Frontier symposium in Data Science 2024 (IISER-TVM)

Feb2024

- Engaged in series of enriching lectures covering diverse topics of science, fostering discussion with experts from across India
- Learned about vast application of data science in every department of science like medicine, healthcare, astronomy etc

EXTRACURRICULAR

Proteus - Biology Club of IISERTVM | *Social Media Head*

Jun2022 – Jan2024

- Worked on official website of the club
- Was involved in organising the club organised events and social media campaigns.

Parsec - Astronomy Club of IISERTVM | *Member*

Sep2022 – May2023

- Produced some engaging and informative video content catering to the interests of astronomy enthusiasts.

SCHOLASTIC ACHIEVEMENTS

- Qualified IAT (IISER Aptitude Test) with rank 332 (EWS).
- Qualified NEET with 463 Marks.
