

# QUEENIE R. ALMEIDA

## UNDERGRADUATE STUDENT

### ABOUT ME

As a final year student at St. Xavier's College pursuing a double major in Psychology and English I have developed an interest with how people's mind works and the ability of language to convey one's feelings through different components of language, one of the reasons I am even learning a foreign language and wish to have a native proficiency over it. I am keen towards filming and documenting by passion. Thus, I am working as a content creator for an Instagram account that makes French content.
