EDUCATION

Mahindra Ecole Centrale, Hyderabad, Telangana, India
Bachelor of Technology in Mechanical Engineering

2018-2022
CGPA – 7.8/10.00

WORK EXPERIENCE

Assistant manager – Veera Rmc Pvt Ltd, Hyderabad, India

June 2024 – Present

Veera RMC Pvt Ltd is a leading Hyderabad-based company specializing in the manufacturing of ready-mix concrete, delivering high-quality concrete to construction sites according to customer orders.

- Reduced production costs by \$100K through optimized resource utilization and timely product delivery.
- Decreased batch cycle time from 120 seconds to 50 seconds, resulting in increased hourly production output.
- Executed preventive maintenance schedules for the plant, reducing wastages by 50% and enhancing productivity by 5%.

Project management Engineer – Mahindra & Mahindra Limited, Chennai, India

Aug 2023 – June 2024

Mahindra & Mahindra is the second-largest car manufacturer in India.

- Resolved pillar trim mis fitment by addressing conventional web guide issues, saving \$120K in tool development. Reduced headliner foam thickness by 20%, resulting in weight and cost savings.
- Published two research papers 24SIAT-1002 & 24SIAT-1004 and accepted for presentation at SIAT conference conducted by SAE, (organization that sets standards and develops standards for the automotive industry).
- Worked in the Trims department (plastic components in car) within the Research and Development team and extensively worked with suppliers responsible for 120 components starting from design to final fitment in the vehicle.
- Spearheaded the comprehensive development of the trim components, ensuring highest customer satisfaction rating.
- Worked closely with the platform team and resolved one of the pressing challenges that the customers were facing, which was provision of luggage hook along with grab handle for co-driver as well as 2 row passengers.
- Addressed assembly line issues, such as mis fitment, by incorporating lessons learned from other existing Mahindra projects and saved \$55K and prevented the last-minute chaos for the All-New Bolero Car project.
- Worked closely with the international design studio called MANA (Mahindra automobile in north America) in USA.
- Ensured that all project activities adhered to established timelines, contributing to the timely completion of project milestones.

Graduate Engineer Trainee – Mahindra & Mahindra Limited, Chennai, India

Aug 2022- Aug 2023

- Secured approvals from cross-functional teams, including vehicle integration and design quality, ensuring proper fit, strength, and ergonomic criteria for the project Thar Roxx.
- Addressed and completed the activity of approvals from cross functional teams 7 days ahead of the timeline of 31 days.
- Resolved validation concerns related to parts in testing vehicles, such as parts coming out after 10,000 kilometres or breaking due to continuous usage. Modified designs to address issues and suggested improvements to prevent damage during usage.
- Worked on the lightweight compatible camping table which weighs 3kg's less among the existing vehicles across the globe, but it can support 50kg's without any damage.
