PROFILE SUMMARY

- Amassed extensive experience in engineering and data analytics, focusing on the energy sector while consistently delivering operational improvements and spearheading strategic initiatives.
- Currently working as Assistant Executive Engineer at Bharat Petroleum Corporation Limited, tasked with conducting market trend analyses and refining operational processes to boost overall performance metrics.
- Cultivated a diverse array of skills in data analysis, market research, and project management, prioritizing the use of sophisticated analytical tools to extract meaningful insights for decision-making.
- Directed the rollout of a Revenue Potential Model that effectively enhanced operations across several locations, playing a crucial role in shaping strategic decisions for essential operational sites.
- Exhibited strong leadership skills by promoting teamwork across diverse functional teams, driving collective efforts towards shared objectives and improving overall productivity.

WORK EXPERIENCE

Assistant Executive Engineer | Bharat Petroleum Cooperation Limited, Mumbai | May'24 – Current

Responsibilities:

- **Execution & Project Management:** Delivered all NROs on time and within budget, managing site documentation, cost optimization, and innovative construction methods. Oversaw as-built drawings and completed facility handovers at ROs.
- **Contractor & Vendor Management:** Managed contractor and vendor relationships by onboarding, evaluating, and ensuring compliance with work standards, training on new methods, and adhering to laws.
- **Quality Control & Safety:** Ensured construction met quality standards, used approved materials, and enforced safety practices with regular training and compliance checks. Maintained site testing records and conducted quality checks on incoming materials.
- **Approvals, Tendering & Documentation:** Managed estimates, approvals, and the tendering process for new outlets and upgrades, ensuring contractor compliance with contractual obligations. Oversaw the completion of necessary approvals, including PESO licenses and local permits.
- **Materials & Asset Management:** Coordinated with the material department for timely procurement, raised PO/PR, and ensured early material mobilization. Managed scrap disposal, maintained documentation for CITC, write-offs, and asset disposal, while overseeing inventory and material tracking.
- **Finance & Administrative Compliance:** Implemented cost control measures, achieving significant savings while adhering to financial guidelines. Certified contractor bills, tracked payments in SAP, and monitored WBSE expenditure, ensuring financial transparency, compliance, and timely release of security deposits and retention money.
- **Brand & Design Standards Management:** Ensured strict adherence to approved standards and layouts for NROs and upgrades, proposing modifications as needed to meet evolving requirements.
- **Coordination & Team Collaboration:** Guided Territory Engineers on standards, specifications, and engineering activities, while leading all engineering efforts in the territory and coordinating with SO, TM, and TE for retail network planning.

CORE COMPETENCIES

Data Analysis & Analytics

Database Management

Data Visualization

Programming & Automation

Business & Strategic Planning

Project Management

Process Optimization

Reporting & Performance Monitoring

Client & Stakeholder Management

Team Leadership & Training

Revenue Optimization

TECHNICAL SKILLS

- Languages: SQL/MYSQL, Python, UNIX/LINUX
- Database Visualization: PowerBI, Matplotlib, Seaborn
- Key Competencies: EDA, Problem Solving, Analytical & Reporting Skills
- Tools: MS EXCEL, SAP, Google Sheets

CERTIFICATIONS

- Google Advanced Data Analytics (Google, Coursera)
- Data Analysis with Python (IBM, Coursera)
- SQL for Data Science (IBM, Coursera)

EDUCATION

B.Tech. in Mechanical Engineering

NIT Kurukshetra, Jul'19 – Jun'23

AWARD

Awarded the Finance Star Award at the NR Amritsar Meet for outstanding performance in financial planning and management.

Highlight:

- Leveraged SQL, Excel, and PowerBI to analyze market data, driving a 14% increase in market share.
- Led the optimization of 86+ locations through the Revenue Potential Model, influencing key decisions for 25 major sites.
- Developed and implemented KPI dashboards, contributing to 80 crore asset additions and achieving a 46% YoY growth.
- Automated compliance tracking for 22,000+ sites, reducing 80 hours of manual effort and improving uptime to 97.36%.
- Successfully launched and organized the Silent Voices Initiative in the Bathinda Territory, empowering individuals with speech disabilities and creating an inclusive platform for their representation.

Operations Officer | Bharat Petroleum Cooperation Limited – Mumbai | Jul'23 – Apr'24

Responsibilities:

- **Indent Execution & Stock Monitoring:** Supervised tank operations, TL planning, and ensured equitable RTKM distribution among transporters. Coordinated vehicle allocation, dispatch, and ensured no dry-out at ROs and customer locations, while automating bay allocation.
- **Amount Collection & Payment Monitoring:** Monitored dealer payment terms, tracked open items, followed up on payments, and raised debit notes for delays. Ensured RTGS receipts and maintained records for all payment-related actions, including cheque/DD lodgement.
- **Transport & Tank Lorry Management:** Ensured annual calibration, safety checks, and updated records for all PCVO tank lorries in SAP. Managed RTKM data, vehicle allocation, and safe transportation, while monitoring VTS deviations, issuing gate passes, and conducting surprise compliance checks on filled tank lorries.
- **Sales & Customer Relations:** Collaborated with Sales Officers to resolve overshipments and dry-outs, maximizing product upliftment. Addressed customer complaints, reported non-upliftment cases, and shared market insights to enhance sales strategies.
- **Analytics, Audit Reports & Statutory Compliance:** Generated daily sales and outstanding reports, ensuring compliance with audit requirements. Monitored explosive certificates, SKO contract quotas, and managed adherence to statutory regulations.
- **Day-End Activities & Automation:** Managed tank nominations, reconciled dispatch figures, and ensured day-end activities for PDP data. Streamlined SAP processes to ensure smooth operations and accurate record-keeping.

Highlight:

- Successfully surveyed 214 outlets, collecting over 10,000 responses to create a comprehensive strategic roadmap for BPCL's Project UFILL.
- Executed retail product trades, settling 350+ transactions worth ₹10 crore across five product lines, directly benefiting over 1,900 lenders.
- Planned and implemented cost optimization initiatives, resulting in a 12% reduction in expenses, while maintaining operational efficiency and reducing product loss by 3.5%.
- Identified and resolved operational bottlenecks, boosting overall efficiency by 15%, and enabling agile responses to market trends across various sectors, including military and industrial clients.

Data Analyst | Udaan, Hyderabad | Jan'22 – Jul'22

Responsibilities:

- Analyzed market trends and delivered data-driven insights for retailers as a Data Analyst for the Supply team, utilizing SQL, Udaan's Data Platform, Excel, and statistical methods.
- Managed UDAAN's FP Loyalty Project, driving a revenue turnaround from -6% to +7% by implementing strategic initiatives.

PROJECTS

Analyse BPCL Retail outlets debt Statistics, Jun'24

- Analysed data using industry datasets by feature selection EDA.

Territory Sales Insights – Oil Industry market share business Jun'24 – Dec'24

- Designed a Power BI dashboard to understand BPCL Product sales trend.
- The final dashboard was effective at displaying the sales trend of BPCL, allowing sales team to understand the data and make informed decisions.
- This dashboard helped in increasing the revenue at least by 7% in the next quarter.

Cloud-Based Threat Detection and Risk Assessment Tool, Digite Infotech Ltd., Jan'22 – Jul'22

- Upgraded cloud-based intrusion detection and prevention system, optimizing security processes, enhancing data analysis efficiency, and implemented SaaS model for improved threat detection.
- Tools Used: AWS Lambda, Python (Boto3 library), S3 event-driven functions.
