Professional Summary

I am a Master of Social Work (MSW) student specializing in Youth and Community Development. As part of my fieldwork curriculum, I have visited ten organizations to understand their structures and impact. In my first semester, I was placed at Karunakarya NGO, where I worked with children on educational and developmental activities. In my second semester, I contributed to Dreamz Foundation Trust, focusing on community-based initiatives for the Irular tribal community. Apart from field placements, I have attended various webinars, workshops, and conferences to enhance my knowledge and skills. These experiences have helped me develop strong communication and presentation abilities, allowing me to engage effectively with different groups. I am passionate about community empowerment, sustainable development, and grassroots interventions. I hope to apply my learning and field experience to contribute to organizations that work toward meaningful social impact.
