PROJECTS

Volunteered in 56th National Nutrition Society of India Conference

Nov 2024

Volunteering at this conference was a fantastic learning experience, allowing me to network with leading nutritionists, dietitians, and researchers. It was an honor to be part of an event dedicated to advancing nutrition knowledge and contributing to healthier communities.

[Thesis on "Public Perception on How Maternal Diet, Drinking habits and Activities might affect the fetus health" ↗](#)

Feb 2024 - Mar 2024

This is an original research conducted to identify the public perception on maternal diet. Data was collected from various regions, culture, and socio-economic background. Thesis was submitted to the respected institute.

Hospital consultation for new mothers

Jul 2023

Conducted consultation sessions with new mothers, providing guidance on infant care, including feeding, hygiene, and sleep routines. Educated mothers on recognizing and responding to common infant health concerns. Collaborated with healthcare professionals to offer comprehensive support and resources to new parents. Helped them to clear the misconceptions and myths about food.
