EDUCATION

Shiv Nadar University, Chennai

B.Tech. AI and Data Science

Grade: 8.202/10

Relevant Coursework: Database Management Systems, SQL, Python Programming, Machine Learning, Probability and Statistics

Chennai, India | September 2021 – May 2025

Greenwood High International School

Science (English, Mathematics, Physics, Chemistry, Biology)

Grade: 99.75%

School topper in ISC

Bangalore, India | June 2019 – May 2021

Indian Institute of Management, Udaipur

Summer Program in Management

Relevant Coursework: Business Strategy, Communication, Accounting and Finance, Marketing, Innovation

Udaipur, India | June 2024

WORK EXPERIENCE

Yobee

Marketing Analyst Intern

Chennai, India | June 2024 – July 2024

- Collected real-time user data through the PostHog tool for Product and Web Analytics to identify where customers are dropping off.
- Analysed the user journey graph to identify that 70% customers are dropping off in the 'dashboard' page.
- Enhanced the dashboard to make it more user friendly by adding Nifty and Market insights, most profitable tradeboxes and such which resulted in reducing the dropoff rate to 30%.

PROJECTS

Solar Panel Recommendation System

Chennai, India | October (ongoing) 2024

Key Skills: UI/UX, Machine Learning

- Designed and implemented a user-friendly interface for users to input their specifications.
- Utilized machine learning algorithms to analyse user inputs and match them with optimal solar panel options.
- Improved decision making for customers, leading to a 37% increase in conversion rates for solar panels.

Customer Acquisition and Engagement

Chennai, India | August 2024

Key Skills: SWOT Analysis, Machine Learning, Feature Selection

- Identified Problem Statement for the company and performed competitor analysis.
- SWOT analysis to find what is lacking and used Machine Learning models based on success metrics to determine new features to be introduced.
- Provided Go-To Market strategies for acquiring new customers and retaining current customers.

Text to Image using GAN for the FashionGen Dataset

Chennai, India | December 2023

Key Skills: Deep Learning, CNN's, Generative Adversarial Networks (CGAN, BERT), Natural Language Processing

- A Deep Neural Network Architecture for turning fashion prototype models to actual designs using text-to-image synthesis.
- Successfully translated user-provided textual prompts into visually appealing and contextually relevant fashion images.
- In the Future Work, aim is to enhance the model's robustness by exploring methods to accommodate a broader array of fashion prompts and diverse user inputs.

POSITIONS OF RESPONSIBILITY

- Assistant Vice President of Education: Toastmasters International:** Involved in preparing Agenda, Motivating club members to perform prepared speeches to move up levels on their pathway.
- Core-Committee member of Rhythm (Dance Team):** Organized 3 cultural events and led a team of 10-15 members.
- Active member of the NSS (National Service Scheme) unit at SNU, Chennai:** involved in 2 beach cleanups, seminars on climate change and sustainability and other volunteering activities.

ACHIEVEMENTS

Academic Topper

Bangalore, India | May 2021

- Topper batch of 2021 (Grade 12); obtained the highest percentage marks – 99.75%

Merit Scholarship

Bangalore, India | May 2019

- I was awarded a 50% scholarship for academic years 2019-2021 for obtaining >95% in class 10

CERTIFICATIONS

Google Data Analytics Professional Certificate

February 2024

- Key Skills: Python Programming, Google Sheets, Microsoft Excel, SQL, Tableau, R programming.
- Covered the 6 steps of the data analysis process: Ask, Prepare, Process, Analyse, Share and Act.
