PROFILE

A passionate individual actively preparing himself for the ongoing phase of academic and professional exploration. Enthusiastic about Economics, Finance and Social studies, with a strong interest in combining these disciplines with policy-making. Embracing a curiosity-driven approach, I am committed to continuous learning and self-improvement. Striving to acquire and hone new skills, my goal is to contribute positively to society through a blend of analytical thinking and a deep understanding of economic principles.

RESEARCH

Researched and conducted a survey on the general awareness of the people on 'Make in India' and 'Atmanirbhar Bharat' initiatives of the government with special reference to the defense sector under the mentorship of my teacher. The survey was conducted on various categories of people including small business owners, defense officials, students and other communities.
