## EXPERIENCE

### St. Rocks High School — *Internship*

Aug 2024 - Feb 2025

During my school psychology internship, I worked with students across age groups, conducted tailor-made sessions, and addressed various counselling concerns including anxiety, peer issues, and emotional regulation. This experience strengthened my ability to create safe spaces, adapt interventions, and support students' overall well-being.

### Mind Clinic — *Internship*

Jan 2024 - March 2024

At Mind Clinic, I worked closely with Dr. Gupta and Dr. Ghodke, assisting with assessments and observations. This experience strengthened my clinical skills and deepened my understanding of mental health. I also learned the importance of active listening and creating a safe space for clients. Their mentorship taught me empathy, professionalism, and critical thinking.

### Leo Club Of Mumbai Carter Road — *Volunteer*

July 2023 - July 2024

The club's vision was to organize events for children, women, and cancer patients throughout the year. We had already conducted a Good Touch, Bad Touch session, a food drive, book distribution, platelet donation, and a blood donation drive. Being part of the club helped me enhance my social skills as I had to interact with many people and understand the challenges they faced in their lives.

### Andrews Vision Center, Wilson College — *Volunteer*

2022 - 2023

Andrews Vision Center is a center for Students with Disabilities. As a volunteer, I got the opportunity to work with an exceptional team where we regularly conducted meetings, brainstormed ideas for organizing events for visually challenged, and held regular interactive and educational sessions.

### Tutor, Mumbai

May 2020 - May 2022

My teaching expertise laid in imparting critical thinking skills to children, enabling them to effectively tackle complex problems while simplifying fundamental mathematical principles. Through the development of effective tutoring strategies, I was able to significantly elevate students' scores, with improvements exceeding 35%. Moreover, I excelled in providing personalized, one-on-one assistance to students, aiding them in completing their assignments and addressing any academic gaps or needs they had.

## CERTIFICATION

### Positive Psychiatry and Mental Health,— Coursera (March 2024)

It was a 19-hour online course that deepened my understanding of mental health as a balance between treating distress and building strengths. The course covered evidence-based strategies to enhance well-being, from relaxation techniques and creativity to understanding mental disorders and recovery. It broadened my perspective on promoting positive mental health, both for myself and those I work with.

### Psychology Course — Mycaptain (June 2022)

I gained knowledge of how to use the decision-making process to solve problems, recognize various personality traits, and identify different forms of intelligence. Create a mental health first aid kit.

### Session By Anil Thomas Exploring The Unexplored — Kishindchand Chellaram College (April 2022)

He concentrated on the gestalt perspective and the methods employed in treatment. Additionally, he emphasized that learning results through watching and understanding stimuli in relation to one another, not merely alone.

### Introduction to clinical psychology — FORTIS (June 2021)

I learned a lot about different disorders, their causes, and treatments during the four days (one hour each day) of the online course. Additionally, I gained knowledge about DSM and ICD.

### Introduction To Art Therapy — FORTIS (June 2021)

I learned the fundamentals and principles of art therapy as a form of psychotherapy. Additionally, I explored different art materials and gained an understanding of how they can influence the therapeutic process and artistic expression.
