

Pragati Jha

Student

As a recent Bachelor of Business Administration (BBA) Student, I am eager to leverage my academic background, theoretical knowledge, and practical skills in a dynamic professional setting. I gained a thorough understanding of marketing, finance, strategic management, human resources, and business fundamentals during my academic career. In addition to giving me a strong foundation in business theory, my courses helped me hone the analytical, problem-solving, and critical thinking abilities that are crucial in a corporate setting. I am looking for internship opportunities where I can continue honing my skills and knowledge in business management and related fields.
