Academic Details

Bachelor of Technology (B. Tech) Computer Science Engineering (CORE) IILM University, Greater Noida; (2024-2028)
CGPA: 8.9
12th (High School Certification) CBSE Board Percentage: 72% (2023)
10th (Secondary School Certification) CBSE Board Percentage: 92% (2021)

Technical Skills

- Cloud Platforms:**
AWS
- DevOps Tools:**
JIRA, Kubernetes
- Programming Language:**
Python, Shell Scripting, JAVA, C
Html, CSS
- Version Control:**
GitHub
- Operating Systems:**
Linux, Windows
- Additional Expertise:**
Figma, Canva (UI/UX)
- Soft Skills:**
Problem-solving, Teamwork, Communication, Adaptability

Core Competencies

Problem-Solving

DevOps

Web Development

Artificial intelligence

Personal Details

Date of Birth: 20th Feb 2005
Languages Known: English, Hindi
Address: Singrauli, Madhya Pradesh

Profile Summary

Motivated and dedicated Computer Science Engineering (CSE) student with a strong foundation in programming, ML and web development. Skilled in **Java, C, Python, HTML, CSS**, and eager to explore the fields of full-stack development and DevOps and Artificial Intelligence. Enthusiastic about building scalable and user-centric applications while continuously enhancing technical and problem-solving abilities.

Work Experience

Web Developer at Nidhaan.in

Aug 2024 – Oct 2024

- Developed and maintained responsive and user-friendly web pages using HTML, CSS, and JavaScript.
- Collaborated with UI/UX designers to implement intuitive layouts and smooth user experiences.
- Integrated backend APIs to fetch and display real-time data efficiently.
- Participated in the planning and deployment of new website features for enhanced functionality.
- Optimized website performance and ensured cross-browser compatibility.
- Contributed to debugging, testing, and documentation of web modules.

Projects

EventoNow – Event Management Website (Ongoing Project)

Designed and currently developing a full-stack web application for seamless event management and registration. The platform allows users to create, manage, and join events with features such as real-time updates, RSVP management, and event categorization.

Tech Stack: HTML, CSS, JavaScript, Node.js, MongoDB

Implementing user authentication, event dashboards, and admin panel.

Focused on responsive UI/UX and scalable backend architecture.

Aimed to streamline event organization for colleges, communities, and public use.

for infrastructure provisioning and Ansible for configuration management.

AI-Based Crop Disease Predictor (Smart India Hackathon)

- Built a smart solution using AI and computer vision to detect crop diseases from images and provide recommendations.
- Tech Stack:* Python, OpenCV, Flask, TensorFlow, Roboflow Api

Co-founder and CTO at Eventonow

2024-present

Additional Information

- Excellent problem-solving and analytical skills.
- Strong communication and teamwork abilities.
- Quick learner and highly adaptable to new technologies and environments.

Achievements

Finalist in Smart India Hackathon (SIH) for developing an AI-driven crop disease prediction system.

Training & Certifications

Infosys Springboard

26th Nov, 2025

Smart India Hackathon
