PROFESSIONAL SUMMARY

Motivated and aspirational BA honors student studying entrepreneurship and innovation who is passionate about financial independence and business development. First of all, as a student with plenty of summer time, I am excited to give my all to the team and to learning. My availability enables scheduling flexibility and gives me the chance to fully commit to the duties of the position. I would be very interested in an internship that would teach me about global business markets, operational systems, and innovative business practices. I'm a quick learner with leadership qualities, problem-solving abilities, and a foundation in teamwork who is looking to apply entrepreneurial thinking in a fast-paced corporate setting.
