## PROJECTS

### 1. RationWala – Grocery Delivery App (Startup Project)

Technologies: Market research tools, financial modeling (Excel, Google Sheets), pitch deck creation (Canva, PowerPoint), digital marketing (Meta Ads, Google Ads),

- Developed a **business model** for an app providing customized grocery catalogs based on consumer preferences and allergies.
- Conducted **market research** and industry analysis to identify gaps in the grocery delivery sector.
- Created a **pitch deck** for potential investors and stakeholders.

### #LocalStartupChallenge (E-Cell Project)

Technologies: Excel, Google Sheets, Canva, PowerPoint, Instagram Ads, LinkedIn Promotions, WhatsApp Business, Google Analytics, Razorpay

- Organized a **multi-stage startup challenge**, including pitching rounds, an auction round, and live business execution.
- Oversaw event operations while also participating, resulting in **the highest profit among teams**.

### AI-Powered Recommendation System

Technologies: TensorFlow, Flask, D3.js

- Built a machine learning model to provide personalized product recommendations, increasing click-through rates by 25%.
- Integrated the model into a Flask web app with interactive visualizations using D3.js.
