Educational Qualification			
Qualification	Institute	CGPA/ %	Year
BBA(Hons)	Pandit Deendayal Energy University (pursuing)	8.33	2024
XII, CBSE	Swaminarayan Vidyapith	77%	2020
X, CBSE	Swaminarayan Vidyapith	60%	2018
Position of Responsibility			
Internships			
Financial Modelling Intern (Yhonk Tech Private Limited)	- Conducted company valuation and project evaluation using financial metrics, including cash burn rate, revenue growth, and profitability ratios. - Evaluated financial models for investment analysis and decision making - Collaborated with senior analysts to assess industry trends and build financial reports.	2023	
Spearheaded a team of 20 members	- Led fieldwork at Lokniketan Trust to assess rural living conditions, education, and government support during COVID-19. - Responsible for Conducting on-ground surveys and interviews to evaluate the impact of government policies on rural communities.	2021	
Research and Development Intern	- Examined the effects of artificial intelligence on employment levels and workforce dynamics using sampling techniques and hypothesis testing - Evaluated AI-driven automation trends and their implications for job displacement and skill transformation. - Applied statistical methods to test hypotheses and validate research findings.		
Independent Research Projects			
International Conference	- Presented research at the ICEIM Conference on the Impact of Financial Development and Non-Renewable Energy on Carbon Emissions of India. - Studied the impact of carbon footprint in relation to financial growth, energy consumption, and policy interventions. - Conducted time series regression analysis to examine the relationship between financial development, non-renewable energy consumption, and carbon emissions.	2024	
Infrastructure Projects delayed	- Analysed delays in infrastructure projects despite active government monitoring using CMIE data - Examined sector-wise trends in project delays, cost overruns, and additional delays across road transport, railways, coal, petroleum, and power sectors.	2024	
Additional Certifications			
Mastering Data Science with R Programming	Gained hands-on experience in data Visualization, statistical analysis and explore various packages and their usage	2023	
Application of Mathematics in Data Science	Understood and leant SDV, linear equations, eigenvalues, and vector spaces for applications in data science and finance	2024	
Advanced Image Processing Using Python	Learned techniques for image enhancement, filtering, segmentation, and feature extraction using Python libraries.	2024	
Augmented and Virtual reality	Gained hands-on experience in augmented and virtual reality concepts, applications, and development frameworks.	2023	
SPSS Software	Learned data analysis, statistical modelling and interpretation	2024	
Extra-Curricular Activities			
- Earned a record of achievement in Discovering End to End Business Processes for the Intelligent Enterprise by SAP - Secured 1st position in Navneet elementary drawing competition in the high School - Disciplined Committee Member -ensured a structured academic environment by maintaining and enforcing discipline policies - Volunteering participated in Non-Government Organization activity at VISAMO KIDS FOUNDATON - Played Badminton which emphasis in me as discipline dedication and time management and undergone in Strength and endurance training.			2019 2023
Interests			
Data Visualization Reading	- Exploring insights through graph and charts to analyse trades and patterns. - Reading - Articles and Bhagavad Gita
