Education

- 2022 - Present  **Sree Chitra Thirunal College of Engineering, Trivandrum, Kerala ,India**
B.Tech in Computer Science and Engineering, APJAKTU University
- 2020 - 2022  **TKM Centenary Public School, Kerala, India**
Senior Secondary Education, AISSCE, Central Board of Secondary Education- 94.8%
- 2019 - 2020  **Birla Public School, Doha, Qatar**
Secondary Education, AISSE, Central Board of Secondary Education- 90.8%

Projects

Weather Website

A dynamic web application that displays current weather data for any city, including temperature, wind speed, humidity, pressure, and precipitation. Data is fetched in real-time using the OpenWeather API and presented using EJS.

-  Built with EJS, CSS, and JavaScript; backend developed using Node.js and Express.
-  Integrated the OpenWeather API to fetch and display real-time weather conditions of user-entered cities.
-  Utilized EJS for rendering dynamic content based on API responses.
-  Strengthened skills in working with RESTful APIs, JavaScript, and backend integration.

Book Logging Website

A website that allows users to log their reviews and thoughts on the books they have read, and rate them out of 5. Users can also search for books and view cover images through Open Library API integration.

-  Built using EJS templates, CSS, and JavaScript on the frontend, with Node.js and Express on the back-end.
-  Integrated PostgreSQL to implement full CRUD operations for storing and managing book entries.
-  Used the Open Library API for book searching and fetching cover images dynamically.
-  Strengthened skills in Express routing, error handling, and debugging across the full stack.
-  Gained hands-on experience in full-stack development and RESTful API integration.

Skills

-  C programming
-  HTML and EJS
-  JavaScript
-  Node JS

Skills (continued)

- Express
- PostgreSQL
- Data Structures

Training & Courses

NPTEL Online Certification

Cloud Computing – Scored **90%** in a course conducted by NPTEL.

IBM SkillsBuild Winter Certification Program

Data Analytics: Turning Data into Decisions using Python – Covered concepts of data analysis and visualization techniques.

Udemy (In Progress)

The Complete Full-Stack Web Development Bootcamp – Covering HTML, CSS, JS, Node.js, Express, PostgreSQL, React and more.

Volunteering

Content Subcommittee Member of IEDC (Innovation and Entrepreneurship Cell), SCTCE

Contributed to content creation for various events, including winner announcements and event invitations.

Demonstrated strong time management skills by consistently delivering work on time, ensuring both speed and reliability.

Placed great emphasis on the accuracy and attention to detail in all content delivered.
