ABOUT ME

Proven AI enthusiast with robust Python, data analytics, and AI skills honed at Microsoft & SAP. Developed innovative tech solutions, including a Facial Recognition System. Eager to apply skills gained during internships to future projects, with a keen interest in cognitive science.

INTERNSHIPS

■ DEC 2024 - JAN 2025

AI INTERN

Microsoft & SAP in partnership with AICTE

- Engineered a cutting-edge Attendance System leveraging Facial Recognition technology to boost efficiency, ensure precision, and fortify security in managing attendance through a swift, secure, and contactless mechanism.

■ OCT 2024 - NOV 2024

Data Analytics Intern

Connecting Dreams Foundation, _VOIS, and Vodafone Idea Foundation

- Conducted comprehensive data analysis on physician visit patterns, revealing critical insights into health trends and socioeconomic impacts.
- Leveraged advanced data visualization techniques to elucidate the interplay between demographic variables, income, chronic health issues, and mental wellness.

■ JUNE 2024 - AUG 2024

Python Development Intern

Next24tech Technology

- Appointed as a Python Development Intern at Next24tech Technology, engaging in a rigorous 2-month training program emphasizing skill acquisition and practical application through project-based work.
- Demonstrated proficiency in Python by executing real-world tasks under the mentorship of experienced team members.

EDUCATION

2022 - 2026

SR GROUP OF INSTITUTIONS, JHANSI

Bachelor of Technology

Specializing in Artificial Intelligence and Machine Learning in the Bachelor of Technology program in Computer Science.

SKILLS

- AI Technologies
- Data Analytics
- Project Management
- Time Management
- Leadership
- Effective Communication
- Critical Thinking
- Adaptability

LANGUAGES

- English
- Hindi
- Japanese (basic)

COURSES

- Certification in Python for Data Science**
JULY 2024 - AUG 2024
- Certification in Python with data structures and algorithms**
JAN 2024 - MAR 2024
- Certification in Big data**
AUG 2023 - OCT 2023
- Certification in Google Cloud Computing**
AUG 2023 - OCT 2023
