PROFILE

A graduate with a Bachelor's Degree in Business Administration (Finance) from B.P Poddar Institute of Management and Technology, I am currently working at Ernst & Young, where I specialize in compliance with due diligence, managing sanctions, Risk Assessment and screenings, and assessing risks for financial service providers. My expertise spans due diligence, root cause analysis, screening, and financial prevention, enabling me to effectively analyze complex data and assess financial risks. I am now eager to transition into Mergers and Acquisitions, leveraging my analytical skills and experience in compliance to evaluate complex financials and drive business transformations. The fast-paced, dynamic nature of M&A excites me, and I am confident that my expertise in risk assessment, attention to detail, due diligence and ability to navigate regulatory landscapes will contribute to success in this field. Additionally, I am currently undertaking A1-level German language at the Goethe Institute and have demonstrated discipline and perseverance through my achievements in martial arts, winning a bronze medal in a district championship and competing at the national level.

PROFESSIONAL EXPERIENCE

Ernst & Young (EY) April 2024 – present | Kolkata, India

Advanced Analyst

At **Ernst & Young**, I excelled in due diligence, managing sanctions, screenings, and assessing risks for financial service providers. Proficient in KYC, CDD, deep dive and root cause analysis, and international AML regulations. Demonstrated expertise in compliance procedures, financial crime prevention, and maintaining high standards in transaction monitoring.

EDUCATION

BBA Finance September 2020 – October 2023

BP Poddar Institute of Management and Technology Kolkata

During my **BBA in Finance**, I studied key business and finance concepts, including financial accounting, corporate finance, investment management, and risk management. I gained a solid foundation in financial analysis, budgeting, and forecasting, along with an understanding of financial markets and institutions. My coursework also covered areas like business law, economics, and corporate governance, providing a well-rounded perspective on business operations. Through internships and practical projects, I developed strong analytical and problem-solving skills, preparing me for dynamic roles in finance, such as Mergers and Acquisitions.
