Languages:

- English
- Hindi

Summary

I hold a degree in Engineering from SIRT, Bhopal (2015), and a Master's in Public Policy from St. Xavier's College, Mumbai (2021). During my postgraduate studies, I undertook research on street-level bureaucrats in the health sector and India-ASEAN relations, while also exploring diverse facets of public policy, spanning urban and rural development. Professionally, I have had the privilege of working with the founder of the Centre for Social, Economic, and Political Research, New Delhi, where I contributed to framing parliamentary questions for an opposition Member of Parliament and authored a comprehensive report on the status and future opportunities of real estate projects in Gujarat under the Smart Cities Mission. Additionally, I collaborated with a Senior Advisor at the Atal Bihari Vajpayee Institute of Good Governance and Policy Analysis, Bhopal, to analyze and document projects focused on enhancing public health facilities and reducing the Infant Mortality Rate in Madhya Pradesh. I have appeared for the UPSC CSE Mains exam, and the preparation for this rigorous examination has played a pivotal role in broadening my intellectual spectrum. It enabled me to develop a deep understanding of diverse topics, including governance, economics, international relations, environment, and science and technology. The interdisciplinary nature of the syllabus encouraged me to connect theoretical knowledge with practical applications, fostering a nuanced perspective on policy issues and current events. The preparation process also refined my critical thinking, analytical reasoning, and ability to synthesize vast amounts of information effectively. It honed my problem-solving skills and cultivated a disciplined approach to research and self-study, which I believe are invaluable in both academic and professional pursuits. This journey has not only enriched my knowledge but also equipped me with a comprehensive outlook on national and global issues, which I continue to leverage in my professional engagements.

Work Experience

Manager

Nation with NaMo, India

- **Punjab Elections, 2022:** Assisted in drafting the General Manifesto for National Democratic Alliance by identification of problems, collating primary research and government data. Prepared Speech Inputs for the Prime Minister and Party President.
- **Punjab Election Campaign, 2022:** Assisted in Planning, Management, and Execution of various campaign events around the state.
