EDUCATION

Manipal Institute Of Technology, <i>B.Tech Computer Science And Engineering (Artificial Intelligence)</i> Relevant Coursework: Data Structures And Algorithms, Discrete Mathematics, Neural Networks, Machine Learning, Computer Vision, Natural Language Processing	09/2022 – present Bangalore, India
Srimathi Sundaravalli Memorial School, Secondary Education 369 / 500 Central Board Of Secondary Education (CBSE), Science Stream	03/2020 – 07/2022 Chennai, India
Srimathi Sundaravalli Memorial School, Primary Education 451 / 500, class X Central Board Of Secondary Education (CBSE)	03/2014 – 07/2020 Chennai, India

PROJECTS

Retinal OCT - Segmentation And Classification, Deep Learning Project Built an ensemble transfer learning model in PyTorch, utilizing cutting edge models for segmentation and classification of Optical Coherence Tomography scans using the presence of retinal fluid buildup to identify retinal diseases with high accuracy.	02/2025
Reinforcment Learning For Stock Market Trading Developed a reinforcement learning agent using OpenAI gymnasium and Deep Q-Learning to simulate a stock market trader using a novel approach integrating historical stock data and macro-economic factors to reflect real-life decision processes.	
Laundry Management System, Full Stack Application Built a multi-client software product as a group that aims to provide business insights to laundromats and provide status updates to customers, ensuring a streamlined end-to-end experience.	
PDF Summarizer, Generative AI Built a PDF summarizer that utilizes RAG to chunk a pdf and provide concise and short summaries for pdf's of arbitrary length using Gemma 2 LLM via Google Studio API	

CERTIFICATES

IBM Data Science Coursera	IBM Deep Learning with PyTorch, Keras and Tensorflow Professional Certificate, Coursera	IBM AI Engineering Professional Certificate, Coursera
Python 3 Programming University Of Michigan, Coursera		

LANGUAGES

English	● ● ● ● ●	Hindi	● ● ● ● ●
Tamil	● ● ● ● ●		

SKILLS

Python Pytorch, SQLAlchemy, Alembic, Pandas, Numpy, Redis, FastAPI	● ● ● ● ●	Dev Ops Git, Docker, Linux	● ● ● ● ●
Node.js Sveltekit, Typescript	● ● ● ● ●	Database Management Systems MySQL,PostgreSQL, Redis	● ● ● ● ●

Soft Skills
Team Worker, Enthusiastic Learner,
Communication, Problem Solving

ORGANISATIONS

National Service Scheme, MIT Bangalore, Volunteer	2023 – 2025
Actively contributed to the National Service Scheme (NSS) during its initial phase, playing a key role in organizing and managing impactful community service projects undertaken by the chapter	Bengaluru, India

INTERESTS

Technical Deep Learning, Healthcare, Bioinformatics, Computers	Non Technical Knitting, Crochet, Cooking, Baking

HACKATHONS

Code-A-Thon, Manipal Institute Of Technology, Expenses Tracker App	04/2025
• Participated in a 24-hour hackathon as a group to develop an expense tracker app using React Native,targeted at college students . • Encourages saving habits and providing financial education. • Developed the pet system and UI for the app. • Learned how to quickly adapt to technologies and work in a high-pressure and fast-paced environment, and understand requirements of different developmental roles.
