SUMMARY

Passionate final-year Artificial Intelligence and Data Science student with hands-on experience in data analysis, machine learning, and web development. Skilled in basics of Python, SQL, and JavaScript, with a keen interest in leveraging AI for innovative solutions in the Ecommerce domains. Seeking an entry-level role to apply my technical knowledge and contribute to impactful projects while growing professionally.

EXPERIENCE

Artificial Intelligence & Data Science Engineer, Excel Infotech

Jul 2022 - Aug 2022

Built a custom menu single handedly using HTML5, CSS3, Javascript and improved the performance of existing application by tuning it by 20% and reduced on-migration time.

PROJECTS

Ecommerce-Website-Decor-Studio

Dynamic and responsive website and deployed as **gokulmandap.com** and technologies used for it are Mysql, Laravel, React.js, and some basics of frontend. Sponsored based project for gokulsuppliers. Done proper SSL certificate and also published the paper of project on the irtje.com website. Project mainly focuses on local community engagement by promoting cultural festivals, birthdays, and helping to build mandaps for Lok Sabha and Rajya Sabha events also offering DIY decorating ideas through a dedicated blog section.

Detection_of_plant_disease_system_website_application

Developed ML based web application on **Google Colab** platform where software aimed at platform, convenient, efficient website for farmers and plan to engage in realtime problems occurred in plants and easily we can develop frameworks and plugins. The application focuses on image recognition techniques to identify disease and recommend actionable solutions.

Page_Ranking_Algorithm

Here, used the concept of DSA to match the nodes and edges for getting exact solutions to reach out to better results for maps basically created the code on **Google_colab** platform with much of sources and it also used for high source of **SEO optimization**.

Taylor's_theorem_based_maths_solver

Mostly used C language for showcasing the Taylor's theorem to solve the mathematical problems and where in real life it is used widely. Mostly, used its logic in **Cellphones**.

Chatbot-Eliza

Developed a robust machine bot which includes the basic functionality of

Chatbot which tells users or clients the specific commands as the bot which will converse with humans fast, seamless search, functionality, and secure data storage. This project achieved **notable time** for making the humans time easier.

Ecommerce_and_portfolio_website

Frontend languages like HTML, CSS & Javascript this project focuses widely over here. The project is also dynamic and responsive and the source code is on github link which is:-

<https://github.com/sakshuon-explore>.

EDUCATION

Bachelor of Technology, Artificial Intelligence & Data Science

Jan 2021 - Jan 2025

Sharad Institute of Technology, Yadrav, Ichalkaranji.

GPA: 7.6

Science, Higher Secondary

Jan 2020 - Jun 2021

Maaer's Institute of Technology, Sangli

Percentage: 89

10th Studies, Secondary

Jan 2018 - May 2019

Shantiniketan Dadukaka Bhide English Medium School Sangli

Percentage: 83

SKILLS

Coding Knowledge: Java, R, HTML, CSS, Javascript, Python, ML, AI, Data Science, Analytics.

CERTIFICATION

NPTEL Certification in Joy of Computing Using Python

Nov 2023 - Jan 2024

Gained proficiency in **Python programming**, focusing on loops, conditionals, and data structures, while completing hands-on projects like game development (e.g., Tic Tac Toe) and data visualization. Enhanced problem-solving skills through weekly assignments and successfully earned certification after a proctored exam.

HOBBIES

Playing piano, chess, Riding dog, creating free hand design, acting on sad roles.

I enjoy exploring my creative and analytical sides through activities such as playing the piano to express emotions through music, engaging in strategic thinking with **chess**, and spending quality time riding with my dog, which brings joy and relaxation. Additionally, I **love** creating freehand designs that reflect my artistic flair and performing emotional roles in acting, which allows me to connect deeply with storytelling and characters.
