Objective

To utilize my technical skills and gain essential business skills that will help empower me to take better decisions and lead with confidence.

Education

University School of Chemical Technology, GGSIPU

B.Tech. in Chemical Engineering, CGPA: 8.83/10.0

2017-21

The Indian School, CBSE

Class XII (Science), Percentage: 94.6%

2016-17

St. Anthony's Sr. Sec. School, CBSE

Class X, CGPA: 10.0/10.0

2014-15

Professional Experience

Production Engineer

Indian Oil Corporation Limited (IOCL), Panipat Refinery

December 2021-Present

- Monitored Diesel Hydrogenation De-sulphurisation Unit through Distributed Control System (DCS).
- Handled operational issues while ensuring safety and efficiency by taking decisions and immediate corrective actions.
- Collaborated with cross-functional teams to optimize plant performance, improve process reliability, and uphold safety standards.

Internships

Intern

Jupiter Technologies

May 2020-June 2020

- Conducted research on biocides formulations and their manufacturing processes, focusing on both oxidizing and non-oxidizing agents
- Analyzed and categorized various biocides available in the market to identify trends and best practices in industrial applications.
- Evaluated disinfectant selection criteria, effectiveness, and formulation techniques to enhance product efficiency.

Intern

Defence Research and Development Organisation (DRDO)

June 2019-July 2019

- Reviewed on Liquid Explosive Precursor Detection by Raman Spectroscopy using stand-off device
- Identified liquid explosive precursors like sulphuric acid, perchloric acid, benzene, chloroform and cyclohexane.
- Assessed graph between Intensity and Raman Shift using a software and then compared the graph from the literature

Positions of Responsibility

- **Head Coordinator** for organisation of Literary events in Anugoonj'18- the annual cultural festival of GGSIPU. Supervised a team of 24 members to plan and organise the poetry, debate, just a minute and creative writing events.

Achievements

- **Secured AIR-50** in Chemical Engineering discipline of Graduate Aptitude Test in Engineering (GATE'21).
- Became the **youngest officer** at IOCL to contribute to the implementation of the cloud-based Online Training Simulator (OTS) platform, enhancing training to handle real world emergencies and operational efficiency.
- Secured a place among the **top 10%** of students in B.Tech Chemical Engineering.
