

VANSH SINGH

Ph. No: +91 9671642692 | University Roll No: 2K21/EC/241 | E-mail: singhvansh336@gmail.com | [Linkedin](#)

EDUCATION

B.TECH (Electronics and Comm. Engineering)	2021-2025	Delhi Technological University, New Delhi
CBSE (Class XII)	2021	Daffodils Public School, Delhi
CBSE (Class X)	2019	Delhi Public School, Sonapat

WORK EXPERIENCE

Digital Design Research Intern | ECED | DTU | DELHI

May 2024 - July 2024

- Designing a **Chaotic System** used for encryption using approximate multipliers to decrease the complexity of design and implementing it on a FPGA using Xilinx Vivado.

Business Analyst Intern | American Tower | GURGAON

July 2024 - August 2024

- Learnt the overall functioning of an engineering and consulting firm specialised in telecom infrastructure sector.
- Worked on **developing Automation Frameworks** using Python scripts.
- Created **PowerBI** dashboards and presentations that showcased the findings and held meetings with relevant stakeholders.

ACADEMICS PROJECTS

Global Carbon Emissions Analysis | SQL and PowerBI | [Analysis report and files](#)

- Analyzed 42 years of carbon emissions data (1975-2017) using SQL queries, identifying maximum and minimum emission levels for India and the World and also the top 5 countries with the highest emissions from a dataset of 142 countries. Created a PowerBI dashboard to summarize the analysis.

IPL Dashboard | Excel | [Dashboard](#)

- Built dynamic Excel dashboard using Pivot Tables and Pivot Charts for in-depth IPL data analysis (2008-2018), covering 800+ data points.
- Created KPIs with shapes/icons and Excel formulae for improved data visualization and decision-making, covering 700+ match results and 13 teams.

Sensors Web Server | Microcontroller

- Uses LORA module of esp32 for long range communication. It can showcase following quantities of a vehicle: Speed, percentage of fuel tank, engine temperature and break pedal force.

TECHNICAL SKILLS

Programming Languages: Python (Basics), MySQL, Arduino, Verilog HDL (Basics).

Technologies: MS Office, PowerBI, VS Code, Xilinx Design ISE Suite, Cadence Virtuoso.

POSITIONS OF RESPONSIBILITY

SIG Mentor of Analog and Digital Electronics | IEEE DTU

August 2022-June 2023

- Taught first years **basics of Analog and Digital Electronics** in weekly classes to help them explore.
- More than **20+** students attended the classes.

Co-Head: Corporate Wing | INVICTUS DTU

December 2022-June 2023

- Brought the **trading partner** of Invictus DTU (annual Techfest with 30,000+ students).
- Led a team of 15** to bring sponsors, to conduct cold calls and assist the sponsors on the day of the event.

Corporate Team Lead | VIHAAN 6.0 | IEEE DTU

January 2023- June 2023

- Managed and coordinated with sponsors of VIHAAN 6.0 (IEEE DTU's flagship hackathon with **2000+** registrations).
- Prepared the **database of 250+ potential sponsors** and conducted cold calls and mails which led to 35 sponsor leads.

PES Coordinator | IEEE DTU

June 2023-May 2024

- Arranged workshops and industry visits for juniors to help them find their interests.
- Organised Hardware hackathons like tinkercase where **40+ teams** participated from various colleges.

OTHER INFORMATION

- Stood at **top 2%** students in **Jee Main**.
- Represented my school at district level in basketball tournaments.
- Mentored class 10th and 12th students through **Desh Ke Mentor** initiative of Govt. of NCT of Delhi.
- Selected** for **hosting exchange students** from **South Korea** at home for a week in 2016 | Delhi Public School
- Scholar Badge Recognition** | Delhi Public School | Active in scholastic activities and academic excellence.
