

Karishma Gulwani

EXPERIENCE DESIGNER

+91 9209223091 | karishma.z.gulwani@gmail.com

SUMMARY

Master's in Design student with a background in psychology, focused on using design research, storytelling, and systems thinking to create meaningful, human-centered experiences. Passionate about applying design for cultural and social impact. Skilled in simplifying complexity, conducting and documenting research. I aim to create experiences that connect people with culture, learning, and community.

INTERNSHIPS

UX Designer | Vrunik Solutions

September 2022 - April 2023

- **Redesigned an enterprise application**, boosting **usability by 30%** through iterative testing and user feedback.
- Assisted in **user research sessions with 20+ participants**, identifying key pain points that directly shaped final design decisions.
- Designed wireframes, interactive prototypes, and high-fidelity UI mockups in Figma, enhancing user flows and accessibility.
- **Collaborated cross-functionally** with developers and stakeholders to align designs with business goals, ensuring a seamless handoff.
- **Documented design processes**, improving UX team efficiency and streamlining onboarding for new designers.
- Developed reusable UI components for the **design system**, reinforcing consistency and scalability.

Graphic Designer | One17 Technologies

December 2021 - February 2022

- Created original app promotions that successfully achieved a **15% click-through rate**, enhancing visibility.
- Strengthened the brand's online presence by creating social media designs that led to a **4% increase in engagement**.
- Produced engaging YouTube videos, contributing to a **7% rise in views** and improving audience retention.
- Performed in-depth **competitive analysis** to develop effective marketing strategies.

ACADEMIC PROJECTS

Craft Research & Documentation – Kullu Weaving

February 2025

- Engaged in **ethnographic research** in a craft cluster, understanding Kullu weaving techniques and their cultural significance to preserve traditional craftsmanship.
- Compiled structured **process documentation**, aiding in knowledge preservation and inform potential design interventions.

Tourism System Mapping & Research – Kangra

November 2024

- Conducted an in-depth **system mapping** study of tourism in Kangra, analyzing stakeholder interactions, infrastructure, and socio-economic impacts.
- Identified opportunities for **sustainable growth and cultural preservation**, outlining a phased strategy for growth.

EDUCATION
