REASON FOR CHOOSING LAW AND THIS ORGANIZATION

My interest in law is driven by a desire to understand and apply legal principles to real-world challenges and contribute meaningfully to society. While I may not have had extensive legal exposure during school, I am highly motivated to grow, and I approach each new opportunity as a step toward becoming a better law student and future professional. I believe true growth comes from experience, and I am committed to developing my legal skills step by step.

As a first-year law student, I am choosing to intern with **CRY** because I aim to build a strong foundation in the field of human rights and social justice. I believe this experience will help me understand the practical aspects of child rights and public interest work. Through this internship, I hope to develop my legal research, communication, and advocacy skills while contributing meaningfully to a cause I am passionate about.
