## PURSUING BACHELORS IN ELECTRONICS AND COMMUNICATION ENGINEERING

### CONTACT

+91 9818351794

[bsnigdha81@gmail.com](mailto:bsnigdha81@gmail.com)

Hyderabad,500049

INDIA

### TECHNICAL

#### SKILLS

Basic level of programming

Language and DSA

- C ++
- Java
- Python
- MATLAB

Core Domain Knowledge

- Bioelectronics
- Electronics Circuits
- Digital Electronics
- Signal Systems
- Analog and Digital circuits
- Sensors
- Wireless and mobile communication
- Advanced Communication systems
- Embedded systems
- Others
- Fair acumen Business Economics

### SOFT

#### SKILLS

- Working with a Team
- Time bound Project Management
- Analytical Writing

### LANGUGES

#### Read ,Write

- English
- Hindi

#### Speak

- Telugu
- Korean

### INTERESTS

- Podcasts
- Learn new Instruments
- Solving Sudoku
- Jigsaw Puzzles

### Major Project

### PROFILE

As a dedicated student pursuing UG in ECE . Priority in developing skills by learning new trends in the industry. With Skills like adaptation, teamwork and Project management as my strengths, confident of excelling in any opportunity given to gain Industrial experience.

### EDUCATION

3<sup>rd</sup> Year Bachelors of Technology (BTECH)

B.V.Raju Institute of Technology , Narsapur (Autonomus)

BVRITN

Graduation Year: 2025

### CGPA

GPA Up to 5 Semester above 6.5/10

### ACCOMPLISHMENTS

#### Academic and Technical

- Presented a minor project on the topic of digital modulation techniques followed by the title of the project being “*Digital Modulation Techniques for Satellite communication*”(August 2023)  
Presented a Major Project Based on the Concept of SDR  
Titled“*Implementation of Image Transmission system using GNU Rdio,SDR, MATLAB*”  
Practiced and participated for coding sessions through “Smart Interviews”,Platform where students are offered training sessions ,completed Phase one during the early 2023
- Participated in various coding contestants in open coding platforms like CodeChef and, Hackerrank
- Completed a 20 day training “*ISRO-START*” in collaboration with IISC, on the course “*Exploration of Solar System*”.
- Pursing certified course on UI/UX Desing through open learning source
- pursuing an online course on machine learning using python in the platform “SmartED”
- Participated in a 3 day workshop delivering content about the software tool NS2

### INTERNSHIPS

Currently working as an Sales application apprentice in a *biomedical device company “Medtronic Pvt Ltd”(6 Moths)*

### Publications

- Paper published in IEEE Xplore Titled“*Implementation of digital modulation techniques for satellite communication using Matlab and simulink*”,through IEEE 9<sup>th</sup> I2CT conference ,April 2024.

### Extracurricular

- 7 Year graduation course in Hindustani Classical Music(Gwalior Gharana) Affiliated with Gandharava Mahavidyala
- Contributed to enhance the primary education in government schools under a government sponsored program “**THINK & MAKE**” organized by Inqui-Lab Foundation followed by UNICEF and Y-Hub.
- Active Member of the College Cultural Club and Anime Club
- I'm currently sharing cover songs by various artists on my Instagram page and presently learning guitar .
- Actively participated in Model United Nations Conducted by Schools and Colleges.
- Participated in music shows organized by my high school and actively took part in extracurricular events organized
