Technical Graphic Designing (Canva), MS Office
Languages English, Hindi and Marwari

EXTRA CURRICULARS
Scribe
Helped a friend by writing five of his board examinations as he was unable to do so, due to his learning difficulties. I learnt the material and therefore tried doing this to the best of my ability.

Think Kids
Headed the Bangalore branch of a well reputed student led organization which provides relief and aid to refugees around the world and took the initiative of conducting and managing multiple successful and creative fundraisers, both online and offline which helped me gain valuable leadership and communication skills.
Iksha Foundation

Iksha is another student led organization that I work for. I am a member of the Human Resource team. My main responsibilities included hiring more volunteers. I helped the founders by exponentially increasing the volunteer base and therefore helping our donation drives go more smoothly. Moreover, I also volunteered for various events such as book drives and early morning marathons.
Fashion Show – Event Head

At my school’s first ever inter school event, I took responsibility of organizing the fashion show. My responsibilities included spreading the word and getting more participation from other schools as well as our own. Furthermore, I held practice sessions every day to help perfect everyone’s walk and poses and lastly, I worked with multiple teachers to finalize an audio to synchronize it perfectly on the day of the event.

Research Paper – Adventure Tourism
This elaborate research report on - “Why should adventure tourism be popularised” highlights key statistics on the positives and negatives of the issue at hand. While the positives focused on the significant impact on local economies, the negative point considered the disastrous effect on the environment.
Research Paper – Sea level rise

This report focused on the impact of global sea level rise at a local, national and global level, and which solutions can be implemented to curb the negatives of the rise in sea levels.
