- **Hindi:** Professional Working Proficiency

INTERESTS & STRENGTHS

- Child welfare advocacy
- Community development initiatives
- Rural empowerment programs
- Social research methodologies
- Community resource mapping
- Sustainable development practices

CAREER OBJECTIVE

As a dedicated MSW student with a background in geospatial analysis, I aim to leverage my unique skill combination to contribute to CRY's mission of ensuring children's rights. I'm particularly interested in using data-driven approaches to identify vulnerable communities and design targeted interventions that create sustainable impact for children and families.
