Faridabad, Haryana, 121004, India

Detail-oriented Mechatronics graduate with hands-on experience in project management, design, and procurement. Proven ability to streamline processes and enhance project efficiency through cross-functional collaboration.

Work Experience

Deputy Manager

Mar 2024 - Present

Radiant Engineers | Faridabad

- Cross-Departmental Roles : Managed multiple roles across departments, including costing, project planning, and design.
- Costing & Customer Communication : Responsible for preparing and sending project cost estimates to customers, ensuring accuracy and competitiveness in pricing.
- Project Planning & Streamlining : Optimized project activities to meet deadlines.
- Design Department : Designed various checking fixtures, collaborating with cross-functional teams to ensure designs met project requirements.

Diploma Engineer Trainee

Sep 2023 - Mar 2024

Tata Projects | Sanand

- Presentation & Data Management : Prepared PowerPoint presentations and data for weekly and monthly reviews with both the client and internal stakeholders, ensuring clear and comprehensive updates on project progress.
- Bottleneck Identification & Solutions : Identified bottlenecks in procurement processes and worked on solutions to keep the project on track, ensuring smooth progress.
- Tracking & Review : Monitored project timelines and procurement schedules, ensuring timely review and follow-ups to keep operations running efficiently.

Development Intern

Jun 2023 - Jul 2023

Victoria Industries Pvt. Ltd. | Faridabad

- Completed an internship as part of my Mechatronics Engineering degree, gaining hands-on industrial exposure and insights into corporate operations.
- Collaborated on projects that enhanced my understanding of development processes and teamwork in a corporate environment.
