PROJECT

EXPLORING THE INFLUENCE OF LGBTQ+ VISIBILITY ON SEXUAL AND GENDER IDENTITY DEVELOPMENT OR CONFUSION

Jan 2024 - May 2024

This study examines the impact of LGBTQ+ visibility on the development or confusion of sexual and gender identities. Drawing on data from a diverse sample of LGBTQ+ individuals, the research investigates how increased representation in media, politics, and social discourse affects identity formation and self-understanding. The findings reveal that heightened LGBTQ+ visibility can significantly influence identity exploration, providing individuals with a broader range of role models and narratives that validate diverse experiences.
