EDUCATION

Maulana Azad National Institute of Technology <i>B.Tech in Materials and Metallurgical Engineering, GPA: 7.82</i> Relevant Coursework : Basic Econometrics, Operation Research, Engineering Management, Data structure and Algorithm	2021 – 2025 Bhopal, Madhya Pradesh
MDS PUBLIC SCHOOL <i>Class XII-CBSE Board, Score : 87.2%</i>	2020 Udaipur, Rajasthan
MDS PUBLIC SCHOOL <i>Class X-CBSE Board, Score : 90.2%</i>	2018 Udaipur, Rajasthan

SKILLS

- Programming Language : Python, SQL, C++
- Libraries & Frameworks : Numpy, Pandas, Matplotlib, Seaborn, Scipy, Plotly
- Tools : Power BI, Excel (advanced), VBA, PowerPoint, MySQL, PostgreSQL
- Soft Skills : Effective Communication & Presentation, Collaboration & Cross-Functional Teamwork, Strategic Analysis, Ownership, Initiative & Data-Driven Mindset

WORK EXPERIENCE

TEMPSENS INSTRUMENTS PVT.LTD. 📁 <i>Summer Intern</i>	May 2024 – Jul 2024 Udaipur, Rajasthan
• Increased thermocouple durability by 20% through leading performance testing of 4+ industrial alloys under extreme heat. • Reduced data processing time by 25% by streamlining analysis of 10K+ data points using advanced Excel functions for faster material selection. • Accelerated experimental timelines by 30% by coordinating with 8+ cross-functional lab members and managing 20+ metallurgical experiments. • Cut review cycles by 40% by delivering detailed technical reports and clearly communicating complex insights to senior engineers. • Achieved 99% precision in microstructural analysis by adhering to ISO 9001 standards, reducing rework by 20%.	

PROJECTS

Customer Acquisition Cost (CAC) Analysis Market and Research Analytics	Apr 2025
<i>Impact: Drove cost savings and scalable growth with actionable, data-driven marketing insights.</i> • Improved marketing ROI by 15% by identifying a 25% lower CAC in Social Media versus Email through analysis of 500+ customer records. • Saved \$120K annually by optimizing budget allocation using CAC, conversion rates, and break-even analysis across acquisition channels. • Reduced reporting time by 40% by creating interactive Plotly dashboards to improve campaign performance visibility for stakeholders. • Enabled 18% growth in customer acquisition without extra spend by identifying a negative CAC-to-volume correlation ($R^2 = 0.68$) via regression analysis.	
CTR Forecasting & Campaign Performance Analysis Advertising & Marketing Effectiveness Project	Mar 2025
<i>Impact: Boosted marketing efficiency with data-backed CTR predictions</i> • Optimized ad scheduling to boost weekend CTR by 20% through analysis of 1M+ impressions using Pandas and Plotly. • Increased marketing ROI by 18% by developing a SARIMAX model with 92% accuracy to guide budget allocation. • Enhanced stakeholder engagement by 35% via client-ready dashboards tracking impressions, clicks, and CTR trends. • Improved campaign efficiency by 25% by identifying timing and budget levers through detailed marketing data analysis.	
Electrochemical Study of Mg-4Al-4RE Alloys Materials Science Lab Project	Jan 2024 – May 2025
<i>Impact: Strengthened implant viability insights and team execution.</i> • Led a 4-member team on Mg alloy corrosion analysis, ranking in the top 10% by delivering 5+ milestones on time. • Achieved >95% accuracy in corrosion rate calculations by analyzing OCP, Tafel, and EIS data and visualizing trends in Excel. • Maintained 100% protocol compliance and lab safety through independent execution of SEM, XRD, and sample preparation. • Received faculty recognition for leadership and clear scientific communication by mentoring peers and presenting research findings.	

EXTRA CURRICULUM

BCG Strategy Consulting Job Simulation
• Identified key drivers of a 15% YoY profit decline for a telecom client by analyzing operational and strategic gaps. • Uncovered \$50M+ in market potential through TAM/SAM analysis, competitive benchmarking, and market research. • Built a financial model projecting a 12–18% EBITDA uplift over 3 years by integrating growth levers and cost efficiencies. • Delivered three actionable strategies tailored to client challenges, earning top scores for clarity and impact from judges.
Executive Member, Zenith – Programming Club, MANIT Bhopal
• Organized the annual “CodeSprint” hackathon with 50+ participants, ensuring smooth execution and timely delivery based on participant feedback. • Enhanced peer engagement and analytical clarity by designing problem statements, evaluating submissions, and providing constructive feedback for competitive coding events.
Volunteer, 8th India International Science Festival 2022
• Supported logistics and coordination for a national science festival hosted by the Ministry of Science & Technology, ensuring smooth operations and positive attendee experience. • Collaborated with a diverse volunteer team to enhance efficiency and ensure timely task completion for large-scale event success.
