PROFILE

My endeavour in life has always been to make the most of my time and resources and to progress in the my fields of interest. My dream is to steadily grow my business ventures, contribute to society by providing career opportunities and improving the quality of life for others. I believe in backing my words with action and making the most out of every single opportunity that comes my way.

I have already taken early steps by co-founding youth football tournaments in Mumbai and placing in the top 55 teams of the 2022–2023 Wharton Global High School Investment Competition, competing against 1,400 teams from 53 countries—practical experiences that reflect my drive to blend learning with real-world impact.
