PROJECTS

[Sweet 'n' Spicy : Food magazine design project ↗](#)

Apr 2025 - May 2025

As part of my assignment, I created a 16 page food magazine titled Sweet 'n' Spicy using canva. This magazine showcases a flavourful journey, from spicy street food to sweet rich delights. This magazine is packed with a bunch of yummy content including food industry news, quick recipes, food fest, superfoods and infographics on regional delicacies. This project helped me to to showcase my creativity and develop my design skills.
