Career Objective :

AI aspirant with hands-on experience in web development and machine learning, aiming to contribute to impactful tech solutions while growing in a dynamic work environment.

SKILLS :

- **Programming** : C , C++ , Python
- **Tech Skills** : Web Development (HTML, CSS, Java Script) , Deep Learning (Python, CNN, Numpy)
- **Other Tools** : GitHub , VS Code
- **Soft Skills** : Adaptability , Time Management , Presentation Skills , Team Collaboration
- **Concepts** : Data Structures Algorithms, OOP, Operating System, Computer Network, DBMS

EDUCATION :

B.tech in CSE(AI ML),
GH Raisoni College of Engineering Nagpur

CGPA: 8.49
(2022-2026)

PROJECTS :

1. Spotify Clone - Music Website Using HTML | CSS | Java Script

- **Interactive Music Player:** Developed a functional Spotify-like music player UI with play/pause, next/previous, and song selection features.
- **Dynamic UI Updates:** Used JavaScript to update song info, progress bar, and playback controls in real-time.
- **Responsive Layout:** Designed a mobile-friendly, responsive layout using CSS Flexbox and Grid for consistent user experience.

2. Brain Tumor Classification – Deep Learning, DataScience (Python | TensorFlow | CNN | Google Colab)

- **Responsive Web Design:** Ensured cross-device compatibility with responsive design techniques.
- **UI Replication:** Recreated the Netflix homepage interface with accurate layout, branding, and styling.
- **Clean & Organized Code:** Used semantic HTML and modular CSS for maintainability and scalability.

Participations And Responsibility :

- **Elevate Hackathon:** Collaborated in a team to solve real-world problems, showcasing teamwork and problem-solving. [Link Of Certificate](#)
- **GDSC CodeChef Challenge:** Strengthened competitive programming and logical thinking skills. [Link Of Certificate](#)
- **NSS Member (1 year):** Contributed to community events, demonstrating leadership, empathy, and responsibility.

CERTIFICATES :

- **Microsoft AI Skills Challenge** – Learned core concepts of **AI**, **machine learning**, and **ethical AI**. [Link of Certificate](#)
 - **Python Programming (Kaggle)** – Gained foundational knowledge in **Python** and **programming logic**. [Link of Certificate](#)
 - **Machine Learning Bootcamp (Microsoft)** – Explored practical **ML techniques** and applications [Link Of Certificate](#)
-
