University)

# P THUSHARINI

B.Sc (Hons) Psychology Student, PES University, Bengaluru

## PROFILE

I'm currently pursuing a degree in psychology, driven by my passion for understanding the human mind and behavior. Outside of my academic journey, I find balance and joy through my hobbies. Singing and drawing allows me to express myself creatively and connect with others on an emotional level, while spending time gardening offers me a peaceful escape and a way to nurture growth, both literally and figuratively. I am also a nature enthusiast.

As I continue my studies, I am excited to further explore the nuances of psychology and try to make mental health accessible to every individual. I'm always open to connecting with like-minded individuals and professionals who share these passions!
