

DILIP CHOUDHARY

✉ dilipchoudhary2506@gmail.com ☎ +91 9513876857 📍 Bengaluru, Karnataka

Professional Summary

Data-driven professional with expertise in leveraging analytical techniques and GenAI tools to extract actionable insights and drive data-informed decisions. Spearheaded an AI-powered data analytics job simulation for Tata iQ's Financial Services team, improving data quality assessment efficiency by 40% and accelerating risk indicator identification through the application of GenAI. Proficient in developing predictive models, demonstrated by achieving 85% accuracy in assessing customer delinquency risk using a no-code GenAI framework, while also reducing model development time by 30%. Adept at structuring and presenting data through impactful visualizations using Tableau and MS Excel, as evidenced by developing a Coffee Sales Dashboard that enhanced sales insight reporting speed by 30% and contributed to a 10% increase in quarterly sales forecasting accuracy. Proven ability to design and implement efficient data solutions, including a SQL database managing 50,000+ crime records, reducing reporting time by 40% and supporting improved resource allocation. Certified in Cisco Data Analytics Essentials, Oracle SQL, and Python, with a strong foundation in machine learning, SQL, and data analysis.

Experience

Data Analytics Job Simulation

Tata Group | Remote null – null

- Spearheaded an AI-powered data analytics job simulation for Tata iQ's Financial Services team, utilizing GenAI tools to improve data quality assessment efficiency by 40% and accelerate risk indicator identification.
- Proposed and validated a no-code predictive modeling framework using GenAI, achieving 85% accuracy in assessing customer delinquency risk and reducing model development time by 30%.
- Structured insights from exploratory data analysis, presenting actionable recommendations that influenced a predictive modeling framework to manage a customer portfolio of 10,000+ accounts.

Projects

Coffee Sales Dashboard

Developed an Excel dashboard analyzing coffee sales data across 5 regions and 12 months. Utilized pivot tables and charts to visualize trends, improving sales insight reporting speed by 30%. Enabled data-driven decisions that contributed to a 10% increase in quarterly sales forecasting accuracy.

- Developed an Excel dashboard analyzing coffee sales data across 5 regions and 12 months.
- Utilized pivot tables and charts to visualize trends, improving sales insight reporting speed by 30%.
- Enabled data-driven decisions that contributed to a 10% increase in quarterly sales forecasting accuracy.

Netflix Dataset Analysis Using Tableau

Analyzed over 100,000 Netflix user records to identify viewing patterns and content popularity. Created interactive Tableau dashboards with 10+ visualizations, including heat maps and trend lines. Presented insights that helped suggest 15% more effective content recommendations.

- Analyzed over 100,000 Netflix user records to identify viewing patterns and content popularity.
- Created interactive Tableau dashboards with 10+ visualizations, including heat maps and trend lines.
- Presented insights that helped suggest 15% more effective content recommendations.

Predicting Listing Gains in the Indian IPO Market Using TensorFlow

Built a machine learning model using TensorFlow on a dataset of 500+ IPOs to predict listing gains. Improved prediction accuracy to 85% by applying feature engineering and hyperparameter tuning. Identified key IPO performance factors, assisting investors in making data-driven decisions.

- Built a machine learning model using TensorFlow on a dataset of 500+ IPOs to predict listing gains.
- Improved prediction accuracy to 85% by applying feature engineering and hyperparameter tuning.
- Identified key IPO performance factors, assisting investors in making data-driven decisions.

Certifications

Cisco Data analytics essentials

Cisco

Oracle SOL

Oracle

Excel

JP Morgan Chase & Co.

Python

Cisco

Big data analytics using Apache Spark

Infosys

Skills

Data Filtering	Visual Data Representation	Analytical Thinking	NoSQL Databases
Git	Python Programming	Time Series Analysis	Data Analysis
Structured Query Language (SQL)	Business Intelligence Tools	MS Excel	Machine Learning
Problem-Solving	Tableau	Statistical Analysis	Data Science

Education

Garden City University

Bachelor of Technology in Data Science

11/2022 – 07/2026
