Profile

I am a skilled professional with certifications in MATLAB, Simulink, and related tools from MathWorks. My expertise includes modeling, simulation, control design, and app building. I aim to apply my knowledge and problem-solving abilities to innovative, technology-driven environments, seeking opportunities to drive impactful results and further professional growth.

Education

REVA UNIVERSITY

- B-Tech in Electronics and Communication

PURSUING

CGPA - 8.49

VBR PU COLLEGE

- PUC, PCMC

06/2021

Percentage - 87.5%

JSS PUBLIC SCHOOL

- CLASS X, CBSE

05/2019

Percentage - 80.4%

Projects

· Maze Application using MATLAB

11/2024 - 12/2024

Created an interactive Maze Application using MATLAB's App Designer during MathWorks' App Building Onramp training. Built a user-friendly interface, added graphics to display the maze, and wrote code to handle user interactions and solve the maze.

· Design of Spy Bug

02/2023 - 05/2023

Our Spy Bug project is an Arduino-based voice recorder using the ISD1820 module for audio capture and storage. An LED indicates when the recording is active. Controlled by an Arduino Uno, the device can navigate to specific locations, using an ultrasonic sensor to detect and avoid obstacles.

· Shadow Sensor Alarm

10/2022 - 01/2023

Our group developed the "Shadow Sensor Alarm" mini project to test a 'Shadow Intruder Alarm' circuit. Using an LM741 IC in inverting mode as a tone generator and amplifier, it powers a transistor to amplify the buzzer. The system detects nearby movement and triggers the alarm, working best in dim lighting to sense shadows.

Certifications

- MATLAB Onramp from MathWorks
- Simulink Onramp from MathWorks
- Simulink Fundamentals from MathWorks
- Stateflow Onramp from MathWorks
- Control Design Onramp from MathWorks
- App Building Onramp from MathWorks
- Fundamentals of PCB Design for System Design from Indian Tech Keys

Extra-Curricular Activities

- Social Media Lead at </DevBraze>
- Lead Photographer at </DevBraze>

- NSS Student Member at NSS
- IEEE Student Member at IEEE
- Volunteering - DRUG FREE SOCIETY from Ministry of Home Affairs (MHA), GOI
- Volunteering - Diamante DevHub Hackathon
- Volunteering - TechFusion Hackathon

Technical Skills

- Languages - C, C++
- Software and Tools –MATLAB, Simulink, Ansys, LabView, Solid Edge, Cadence, Xilinx, PCB Design, Circuit Design

Soft Skills

- Effective Communication, Presentation Skills, Leadership, Self-Motivated, Detail Oriented, Responsibility, Teamwork, Adaptability

Additional Information

- Languages Known - English, Hindi, Kannada, Tamil, Telugu
- Hobbies - Photography, Video Editing, Badminton, Chess, Table Tennis
