

Profile Summary

A dynamic and curious thinker with a background in engineering and a passion for education policy. Currently pursuing a Master's in Public Policy and Governance, I bring a unique blend of analytical skills, technical expertise, and a deep commitment to social impact. My experience in design engineering taught me precision and problem-solving, while my time in customer service honed my ability to connect with people and understand diverse needs—skills I now apply to research and policy analysis. I am eager to contribute to evidence-based policy initiatives, particularly those that make education more inclusive, equitable, and impactful.

Education

Master of Arts in Public Policy and Governance

Dr. B.R. Ambedkar University Delhi | 2024 – Present

Bachelor of Engineering (Electrical)

Gujarat Technological University | 2015 – 2019

Professional Experience

Design Engineer

Viketa Electronics, Ankleshwar | Jun 2020 – Mar 2021

- Designed and implemented electrical systems for diverse commercial and residential projects, ensuring compliance with national standards and safety protocols.
- Created detailed CAD schematics and single-line diagrams, demonstrating a high level of precision and technical skill.
- Collaborated closely with cross-functional teams to oversee installations and resolve on-site challenges—experience that sharpened my problem-solving abilities and taught me the value of effective stakeholder coordination.

Customer Service Representative/Sales Associate

Etech Global Services, Gandhinagar | Aug 2022 – Jul 2023

- Acted as the primary point of contact for customers, translating their needs into tailored solutions and building lasting relationships.
- Resolved complex customer inquiries and disputes with professionalism and empathy, enhancing satisfaction and loyalty.

- Thrived in a dynamic, fast-paced environment, balancing multiple tasks while consistently delivering high-quality service—a skill set I look forward to applying in policy research and analysis.
-

Skills

- **Analytical Thinking & Problem Solving**—Ability to break down complex issues, identify patterns, and generate actionable insights—a skill honed through both engineering and policy studies.
 - **Research & Evidence-Based Analysis**— Skilled at designing and conducting research projects, synthesizing data, and translating findings into meaningful recommendations.
 - **Communication & Stakeholder Engagement**—Strong interpersonal skills for connecting with diverse stakeholders, facilitating dialogue, and building trust.
 - **Technical Fluency**—Proficient in CAD software, AutoCAD, and data visualization tools, with an eye for detail and precision—valuable for both technical and policy analysis.
 - **Policy Writing & Presentation**—Experience in drafting reports, policy briefs, and presentations that communicate complex ideas clearly and persuasively.
 - **Project Management**—Proven ability to manage time effectively, prioritize tasks, and deliver high-quality work in dynamic environments.
 - **Languages**—Fluent in English, Hindi, and Gujarati—able to connect with diverse communities and contribute to inclusive policy design.
-

Interests

- Education policy and equity
 - Social development research
 - Evidence-based policy analysis
 - Community outreach and participatory governance
-

Career Objective

To secure an internship at a public policy or social science organization where I can leverage my analytical skills and passion for education and social impact. I aim to contribute to research that shapes effective policies and makes a tangible difference in communities.
