INTRODUCTION

Curious and research-driven psychology undergraduate with a deep interest in clinical and developmental psychology. Strong foundation in academic research, report writing, and psychological theory, with proven experience in content creation, research synthesis, and team leadership in non-profit settings.

Interested in shadowing clinical psychologists, participating in patient intake observation, and understanding hospital-based mental health workflow and diagnostics, alongside exploring research opportunities to gain a relative understanding between various spheres, such as Literature and Psychology/Behavioural Sciences.

SKILLS

- Academic Research & Literature Review.
 - Empathetic Listening
- Effective Communication & Development-orientation.
- Familiarity with Psychological Tools (for example; MMPI & willing to learn)
 - Ethical Awareness in Mental Health Practice
- MS Word, Google Docs, Google Slides & Google Sheets
